Attachments: Ocala FLDEP letter for Notice of Treatability Study.doc

---

Ms. Bishop Clark:

Your notice of Treatability Study is accepted with one clarification. The processing limit is for 1000 kilograms of mercury containing material, not 1000 kilograms of mercury. This acceptance is also contingent upon having received all other permits and registrations necessary to conduct the study prior to the event.

Please coordinate with District personnel so that they can attend one of the treatability events.

Thanks.

Anthony R. Tripp, Ph.D., P.E.
