Edgar,
After reviewing 40 CFR 264.147(b), the request to terminate the nonsudden liability is acceptable for both Perma Fix of Gainesville and Orlando.

Tony:

Perma Fix of Gainesville and Orlando used to provide liability for sudden and nonsudden accidental occurrences. They have reevaluated the situation and decided that just insurance for sudden liability is necessary. Is this acceptable? See below.

I contacted the corporate office to see what happened. They reviewed some of the liability insurance policies and decided that since Perma-Fix of Florida does not have a landfill, the appropriate type of insurance is for sudden accidental occurrences. They decided that the non-sudden category does not apply. Corporate made the change for Perma-Fix of Florida and had

not gotten around to making changes for Ft. Lauderdale and Orlando. Apparently that will take place next year.

Even given this explanation, I realized that the form for Gainesville still has sudden/non-sudden checked and will need to be corrected. Corporate sprung the changes on me, and I apologize for the problems.

Thanks,
Kurt

Kurt:

I took a quick look at the certificates. Please double check the certificate
for Gainesville. According to my records it must be for 4/8 million.

I imagine that the inflation adjusted closure certificates of insurance are on their way, right?
