Attachments: DSC01471.JPG; DSC01469.JPG; DSC01470.JPG

Beth,

Attached are a few photos to confirm completion of the follow-up action that was identified during our facility inspection today. The hole on the storage container has been covered. There were also a couple more containers with similar configuration which have also been covered. Please let me know if anything else is needed. Also, will there be an inspection report provided?

Thanks,

Brandon Barr
