Subject: Safety-Kleen, Medley; Notice of Field Activities Schedule
Date: Thursday, August 27, 2009 12:17:57 PM

Hello Dan:

Per the message below, please be advised that the first phase of field activities is scheduled to begin on September 10 at the S-K Medley facility. This notice is provided pursuant to Table A in Chapter 62-780, F.A.C.

Thank you....Rick

p.s. Probas, please be sure to obtain latitude and longitude GPS readings for the 3 monitor well locations, and the soil sample locations.

Probas,

Yes, Sept. 10 is good. Please advise the facility people. I will provide notification to FDEP.

See the Field EDD checklist from Courtney, and be sure all info is obtained to enable us to complete the ADaPT software Field Data Electronic Data Deliverable (EDD).

Thank you....

Hi Rick,

I wanted to let you know that we'll be available on September 10th to conduct

the Safety Kleen-Medley field work. I will order the kit after I hear back from you. I am figuring out the details with respect to the slug test. Please let me know if the date works for everyone.

Thanks,

Probas Adak, E.I.
