Re: Safety-Kleen Corp., FLD 980 847 271
Construction Permit Application HC29-118986
Fourth Notice of Deficiencies

Dear Ms. Jurczak:

We acknowledge receipt of your response to our third notice of deficiencies. We are informed of your attempt to obtain the 1'2000' scale map with drinking water wells.

Looking into Exhibit I.E. 3-5 what we found was a testing specification on the legend table. What we need is a written procedure as to what way and how often this test is going to be conducted. Wall thickness determination should also be included. An inspection log to record findings and remedial actions should be developed to comply with 40 CFR Parts 264.73 and 264.194.

We hope the intent of our requirement has been well specified in this letter. If you have any question concerning this matter, please call me at 813/985-7402.

Sincerely,

Armando Gonzalez
