Hello Beth. Attached is our In Kind acceptance letter. As you know, the barrier netting (aka "Water Goat") has been completely damaged and requires replacement. I'm waiting on the Port Authority to get us a quote for the purchase on a new one which we will install. As a result, our 1st monthly report requirement (04/12) will be delayed. I'm not sure how long the receipt of the Water Goat will take. I'll keep you informed as to the schedule.

We likely will not have achieved anything by the 12th.

Please advise.

Regards,
Ed Kinley
