Kathy/Bheem, as per my separate conversation with both of you earlier this afternoon, attached, as per your requests, is pertinent info to the subject facility that may be of use to you. Please refer to attached and note a Fire Incident was reported back in July 2008 at subject facility, that I happened to be on-call at that time and responded to the scene. In Jan 2010 Broward County PPRAQD permits were issued to close old tanks, an install new ones. The Closure and Installation activities were inspected and documented in FIRST, Oculus and STCM. I hope this helps. Let me know if there are any further question re same. Thank you.
