Subject: RE: Universal Environmental - In Kind Proposal

Hello!

Thank you for your patience on this.

I have reviewed the project. I am not sure that buying new rubber boots every time a staff member goes on site would count, however, even if the cost of the boots were not included, the project appears to meet the 1.5 times threshold. Therefore, if they can provide recurring proof of cost until the $21,129.00 threshold is met, then OGC has no objections to the proposed in-kind project.

Let me know if you have any questions or would like to discuss further,

Kathryn Lewis
