We did not locate additional records for the subject property.

Please be advised that name variations, misspellings and incorrect addresses may not indicate the existence of actual files, and the Department will not be responsible for any files not retrieved based on the information submitted to us. Most records are located using a combination of facility/site name and physical address. There may not be enough information provided to determine if the Department has records applicable to your search request. Parcel numbers are not used as a reference in most Department data systems. We cannot search the databases for an "adjacent property". We cannot search for a range of addresses. If you provide specific addresses, we will search for records for those addresses.

Although we make a diligent search to locate all information related to your request, files may still exist in other programs, which have not been identified as directly related to your request based on the identifying information you have provided.

If I can assist you, please contact me. If I have misunderstood your request in any way, please let me know.

Thank you very much,
Ruth McLemore-Price

Subject: Public Records Request: 1501 Omni Way, Saint Cloud, FL 34773 (Osceola County) Facility: Reserve Material Processing

Dear Ahwi Quacoe ,

Your request for public records will be processed through the Central District Office of the Florida Department of Environmental Protection (the Department.)

Records Requested:

Reserve Material Processing
1501 Omni Way
Saint Cloud, FL 34773
Osceola County
Our most recent records request response for this address was April 30, 2010. A copy of the response is attached.

Please be advised that name variations, misspellings and incorrect addresses may not indicate the existence of actual files, and the Department will not be responsible for any files not retrieved based on the information submitted to us. Most records are located using a combination of facility/site name and physical address. There may not be enough information provided to determine if the Department has records applicable to your search request. For the most part, parcel numbers are not used as a reference in Department data systems. It is virtually impossible for us to search the database for an "adjacent property".

Although we make a diligent search to locate all information related to your request, files may still exist in other programs, which have not been identified as directly related to your request based on the identifying information you have provided.

The records you request may not be at the Central District Office because of delegation or because the

District is not the office of record. **Osceola County Emergency Services, under contract with The Department, is responsible for Storage Tank Compliance. The Polk County Health Department, under contract with The Department, is responsible for Petroleum Cleanup in Osceola County.** DEP does not maintain duplicate files. Contact information follows:

Storage Tank Compliance Contract
Osceola County Emergency Services
Mark Gill, Tank Inspector
200 Broadway, Suite B
Kissimmee, Florida 34741
Phone: 407-343-7000
Fax: 407-343-6882

Petroleum Cleanup Contract
Polk County Health Department
Cory Franklin, Environmental Manager
Lakeland, FL 33813
Phone: 863-413-3325
Fax: 863-413-3333

Small Quantity Generators of Hazardous Waste (SQGs) are often inspected by local governments. Contact information for Osceola County's SQG Program follows. Duplicate information is not maintained by the Department.

Osceola County Recycling
750 S. Bass Rd.
Kissimmee, FL 34741
SQG Supervisor: Mike Bryant
MBry@osceola.org
Phone: 407-962-1108
Fax: 407-962-1114

Link to: Hazardous Waste Handler Search

Search for facilities by name, address, city, or county. If you are looking for a specific site, it is suggested you search by address by entering the address number followed by the "%" wildcard symbol. Select the County the address is in to narrow the search. Then click on Handler Search. This will return all sites in the county that have that address. Site names are not a reliable way of searching as the name of a facility can change with each new owner or for other reasons.

From the search results screen, you can select the letter "D" and a listing of all hazardous waste documents presently in OCULUS (DEP's document management system currently used by waste management,) will be presented in date order. Use netuser for the username and password to sign in to OCULUS. OCULUS is DEP's document management system currently used by Waste Management, for public access.

Below is information that may be helpful for future public records requests:

The following page lists various DEP data and information resources available online
http://www.dep.state.fl.us/central/Home/CitizensServices/RecordsRequests.htm

To assist you in locating specific records that you would like to receive, you may wish to utilize our online resources available to the public. Our "DEP Business Portal" offers a variety of records and information that are readily accessible to the public free of charge. Via the online resources you may find identifying information that can assist us in locating records for you

(such as specific permit numbers or facility identification numbers) or you may find the records themselves located in one of the portal sites. You may access this site via by clicking on the "DEP Business Portal" button on our homepage (http://www.dep.state.fl.us/). Under the "View" tab, you will see online resources for various program areas. You may also access the DEP Business Portal by using this direct link: http://www.fldepportal.com/go/

Many Waste Management documents are available online in OCULUS, a document management system and available to the public.

- Waste Management OCULUS Login: http://dwmedms.dep.state.fl.us/Oculus/servlet/login
- Guide to using OCULUS [.doc 1582 kb]
- Waste Management Taxonomy [.xls file 37 kb]

Consolidated Mapping (CA)- map based information on DEP regulated facilities
http://ca.dep.state.fl.us/mapdirect/gateway.jsp

DEP is not the only agency with environmental responsibilities in Florida.

- Records pertaining to your inquiry may be at the Department of Health (example: septic tanks,) the State Warning Point (http://www.floridadisaster.org/Response/Operations/swp.htm,) local government offices or other agencies.

- Directory to State of Florida Agencies: http://www.myflorida.com/directory/.
- Environmental records may be maintained by the US Environmental Protection Agency (http://www.epa.gov/).

Please be aware that the Federal Freedom of Information Act ("FOIA") does not apply to records requests submitted to state agencies. To the extent that the Department has possession of any records generated by a Federal agency which are not exempt from Chapter 119, Florida Statutes, those records will be provided to you.

If I have misunderstood your request in any way, please let me know.

Thank you very much,
