Good morning,

On June 8, 2018, the Department conducted a used oil transporter Compliance Evaluation Inspection (CEI) at the above referenced facility. The documentation requested at the conclusion of the inspection was provided to the Department and it appears that the facility has since returned to compliance.

Please continue to comply with all state and Federal regulations and keep this communication and inspection report in your records. Most information received or sent by the Department is public record and is placed in OCULUS, the Department's electronic database for document storage. You can view the final inspection report and other documents for this facility at the following link: Everglades Waste Removal Services. Please select "Public Oculus Login" to view the documentation.

Please contact me if you have any questions about the inspection or any other compliance-related issues. Thank you for your cooperation and assistance.

Best regards,

Alannah Irwin
