Hi, Ed

As we discussed, the time frame for submittal of your SEP proposal is within 60 days of the date of execution of the Consent Order, or January 15th. If you need an extension, please let me know as soon as possible. Your submittal can be made by email.

From the Consent Order " An in-kind project must be either an environmental enhancement, environmental restoration, or a capital/facility improvement project. The Department may also consider the donation of environmentally sensitive land as an in-kind project" And from exhibit I "The proposal shall include a summary of benefits, proposed schedule for implementation and documentation of the estimated costs which are expected to be incurred to complete the project. These costs shall not include those incurred in developing the proposal or obtaining approval from the Department for the in-kind project."

I understand that you may be considering a shore cleanup activity at the Port of Tampa. This would be considered an environmental enhancement project, rather than a P2 project. A pollution prevention project could be considered, but the submittal and approval steps are somewhat different. I have included some links below to the Department's guidance and consent order exhibits used for developing and implementing P2 projects.

https://floridadep.gov/ogc/ogc/documents/pollution-prevention-projects-enforcement-process

https://floridadep.gov/ogc/ogc/documents/p2-project-plan

https://floridadep.gov/ogc/ogc/documents/p2-project-progress-and-final-report

Let me know if you have any additional questions.
