Mellissa they were installed on top of the waste to a low area of the landfill to pump water to the lift station to evacuate standing water. This was done via my predecessor. The pipes are not functioning and have not been used since I started here 12 years ago, they are tied to anything and will be buried as we make another lift, but if the Department wants them removed we can do so. I do not see the need to do anything as they are nothing more then something the mowing crew needs to avoid.

Sincerely,

John Power

John,

What is the purpose of the pipes on the S side of SW-1? Are they clean-outs? If so, will the damaged one still function?

Please feel free to contact me with any questions or concerns.

Thanks, Melissa

Dep
Requested these items be fixed and pictures sent
1. SW1 1 area of settlement we started to repair

2.SW1 broken pvc pipe , what does it do? and metal has surfaced they want picked up

3. storm water run off area between sw1 and sw2 there is a raised area that stops water (comanco needs to fix)

4. SW2 need to cover street sweepings better

5. A4 cell need to fix slopes . and they want to know why the whole area that we are working isn't floored.

6. When was the last inspection of lechate tank and when is our next scheduled inspection.

Melissa said nothing to make a big deal about ,if we could just e mail her an awnser about 2,5,6 and send her pictures of 1 thur 5 shes happy
