Hello Mr. Kinley,

I don't have a template, but basically the sign needs to include the consent order Respondent's name, the activity that is being performed, and why the activity is being performed (enforcement with DEP). The sign must be at the project site.

Consent Order, OGC No. 18-1323
Page 10 of 10

f. During the implementation of the in-kind project, Respondent shall place appropriate sign(s) at the project site indicating that Respondent's involvement with the project is the result of a Department enforcement action. Respondent may remove the sign(s) after the project has been completed. However, after the project has been completed Respondent shall not post any sign(s) at the site indicating that the reason for the project was anything other than a Department enforcement action.

Thank you,

Abigail Bridges

Hello Abigail. Thanks for your reply. There isn't a DEP sign there. Honestly, I forgot that piece. Can you direct me to a template? We'll get one ordered. Where would it be appropriate to place?

Yes…we can coordinate a visit 48 hours in advance. Of course, it's weather permitting. Also tidal influenced…we do best on an outgoing tide.

Regards,
Ed Kinley

Good afternoon Mr. Kinley,

Thank you for submitting the Universal Environmental Solutions In-kind Project Status Update for the McKay Bay Park watergoat (OGC Case #18-1823).

The Department would like to observe the next clean up event that Universal Environmental Solutions conducts at McKay Bay Park and to verify that the proper signage has been posted. Please notified us in writing at least 48 hours prior to the next event so that we can be present.

We appreciate your ongoing cooperation with these matters.

Sincerely,

Abigail Bridges
