CERTIFIED - RETURN RECEIPT

7002 2410 0003 9935 2906

Mr. Greg S. Newton
Environmental Health and Safety Manager
Veolia ES Technical Solutions, L.L.C.
5736 W Jefferson Street
Phoenix, AZ 85043

RE: Veolia ES Technical Solutions, L.L.C.
EPA I.D. No. FL0 000 207 449
Permit No. 71455-HO-009
Response to Notice of Deficiency dated November 14, 2006

Dear Mr. Newton:

The Florida Department of Environmental Protection (Department) has reviewed your response to Notice of Deficiency dated November 14, 2006. The review indicates that the information provided under 9.5 Closure Performance Standards is inadequate and the facility must provide the following information, so that the permit application will be considered complete.

1. The facility must specify whether the facility will be closed with residential or industrial cleanup standards. If the facility will be closed with industrial cleanup standards, then certain restrictions will be imposed on the property, so that in future the site can not be used as residential.
2. At final closure, to demonstrate that the closure performance standards have been met, the facility must collect adequate number of mercury wipe samples and air samples. The analytical results must be compared to the cleanup target levels specified in the Dr. Robert's guidance memo dated May 18, 2006 as follows:

<u>Sample</u>	<u>Residential</u>	<u>Industrial</u>
Wipe sample	0.00054 ug/cm ²	0.0087 ug/cm ²
Air sample	1.0 ug/m ³	3.0 ug/m ³

"More Protection, Less Process"
