Good afternoon, Mr. Gebor,

I apologize for missing your calls, as Justin and I were still out in the field conducting inspections. I am about to leave for the day, but I will call you tomorrow morning.

The Department attempted to perform a routine compliance inspection of your site, Supreme Fuel (EPAID FLD982153843), located at 850 Southwest 21st Terrace, Fort Lauderdale, Florida 33312. The Department's records indicate that the facility is operating as a Large Quantity Generator (LQG) of hazardous waste and as a registered Hazardous Waste Transporter. Based on the 8700-12FL Notification of Regulated Waste Activity form submitted on 1/23/2019, your facility appears to operate as a petroleum refinery; however, during the inspection, no process units or fuel storage tanks were observed. Please answer the below questions:

1.) What type of operations does your facility conduct?
2.) Where do you perform your operations?
3.) How long have you been performing these operations?

Thank you and I look forward to speaking with you tomorrow.

Sincerely,

Alannah Irwin
