Good morning, Elijah,

Thank you for your email. Can you tell me how many staff you employ at your business?

If Supreme Fuel is operating as a refueler and is not transporting any hazardous waste from clients, you will need to resubmit the attached 8700-12FL Notification of Regulated Waste Activity (DEP Form 62-730.900(1)(b), F.A.C.) to the Division of Waste Management in Tallahassee. Please note that the notification is for Regulated Waste Activity, such as Hazardous Waste, Used Oil, Universal Wastes, etc., and does not regulated any activities associated with the transport of fuel products. Your business is still regulated under other agencies, such as the Florida Department of Revenue.

Please complete the attached form and submit a hard copy to the following address:

EPA ID Notification Coordinator
Hazardous Waste Program MS 4560
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

On the form, please indicate that you are providing a **Subsequent Notification** for your facility, indicating that you are no longer a generator or transporter of Hazardous Waste (Item 11). When submitting this form, please use the EPA Identification Number FLD982153843. I have also attached a copy of the Notification Instructions for your reference. If you have any questions, you may contact Tiffaney Noland, EPA ID Notification Coordinator, at 850-245-8727. Thank you!

Regards,

Alannah Irwin

>
> The Department attempted to perform a routine compliance inspection of your site, Supreme Fuel (EPAID FLD982153843), located at 850 Southwest 21st Terrace, Fort Lauderdale, Florida 33312. The Department's records indicate that the facility is operating as a Large Quantity Generator (LQG) of hazardous waste and as a registered Hazardous Waste Transporter. Based on the 8700-12FL Notification of Regulated Waste Activity form submitted on 1/23/2019, your facility appears to operate as a petroleum refinery; however, during the inspection, no process units or fuel storage tanks were observed. Please answer the below questions:
