---

Hi Jared!

Based upon your questions below, we have revised the SOP and will be training personnel on the revision as soon as possible.

Dwight

Subject: RE: 20 December Request for Additional Information – Crowley Liner Services, Inc.

Dwight,

Thank you again for your facility's response to the Department's Request for Additional Information.

Upon review, the Department would like some clarification regarding lines #1.1.6 and 1.1.7 on Crowley's "PEV Process for Transfer, Handling and Temporary Storage of Hazardous Waste". Per the transfer facility requirements of 40 CFR 263.12, transfer facilities have 10 days to move the hazardous waste off-site. In your submittal, it appears that Crowley does not have a process in place to ensure hazardous waste cargo is not on-site longer than 10 days.

Also, the weekly hazardous waste container inspections are to be conducted and documented from the first week the containers are on-site per Rule 62-730.160(3) F.A.C. (not upon reaching Day 11, as indicated in the submittal).

Please provide this clarification and corrections as soon as possible so the Department can continue to move forward in this case.

Regards,

Jared Heyns
