Yonathan, what is the status on the work schedule for our tank work as I have not seen much activity on the external work. I also want to let you know that the County does want to proceed with having the tank repainted. Last, but not least we are under a time certain that the Florida Department of

Environmental Protection (FDEP) has given the County to send them a report on what Crom found in during their inspection as well as the work performed, this is due to FDEP this Wednesday, Jan.15th, 2020.

Thanks,
