## SENT VIA EMAIL:

kfogleman@perma-fix.com

Dear Perma Fix of Florida-Gainesville:

The Florida Department of Environmental Protection (FDEP) and the U.S. Environmental Protection Agency (U.S. EPA) have compiled a list of all facilities deemed appropriate and important to address using the Resource Conservation and Recovery Act's (RCRA) Corrective Action Program. Because this set of 3,880 facilities has national remediation goals which will culminate in the year 2020, it is referred to as the 2020 Corrective Action Universe. **Your Florida facility is part of this 2020 Universe:**

Your facilities have been included in the 2020 Universe because either:

- It already belongs to the 2008 Corrective Action Baseline,
- It has a RCRA permit obligation, or
- The FDEP and the U.S. EPA agreed that it needs cleanup under the RCRA Corrective Action Program

Inclusion on this list does not imply failure on your part to meet any legal obligation, nor should it be construed as an adverse action against you. It only means that the FDEP and the U.S. EPA have identified your facility as needing to complete RCRA Corrective Action. Our national program goal is to largely address these cleanup obligations before the end of 2020. Accordingly, progress will be measured for each facility in the 2020 Universe. The list of facilities will be posted on the U.S. EPA's web site at <http://www.epa.gov/correctiveaction> on April 16, 2007.

Inclusion on the 2020 list means that the FDEP and the U.S. EPA expect that a final remedy will be in place (i.e. remedy construction completed) at your facilities by 2020, although actual attainment of cleanup goals through remedy implementation may take a while longer. Since no corrective action has been required for your facility, inclusion on the 2020 list does not imply that you need to do any additional work to meet all of

the 2020 goals. Please also note that inclusion on the 2020 list does not defer any pre-existing obligations to meet the Government Performance Results Act (GPRA) goals for 2008.

Please contact Bryan Baker at (850) 245-8787 if you believe that facility-wide corrective actions are already complete for your facility or if you have further questions regarding this letter.

Sincerely,

A handwritten signature in black ink, appearing to read "TJ Bahr".

Tim J. Bahr, Administrator  
Hazardous Waste Regulation
