Example Piping Diagram.pdf

John,

I am filling in for Bheem Kothur while he is on annual leave during December. In reviewing your November 20, 2012 response to our October 19, 2012 request for additional information, there are a number of items that are still needing to be addressed. The original attachment to the October 19, 2012 request for additional information has been attached to this document. In that document, items for which sufficient information has been received have been stricken. Items for which additional information is still required are followed by comments in red describing what is still required.

Give me a call when you have had the opportunity to review these documents and we can discuss any items that you would like clarified.

I will talk with you next week.

Tony
