Dear Mr Heyns

Happy New Year. It was a pleasure speaking with you.

As a follow up, please find attached he information you requested.

Also, as you mentioned, I do not have a specific operations policy and procedures or spill response for the Hazardous Pharmaceutical Waste. Can you assist with the template so I could customize it. I would greatly appreciate your help.

When we talked it was mentioned that I could seek the storage permit as well. Can you provide some directions on what I would need to do in order to get the storage permit.

Thanks and have a great day. Please feel free to contact me if you need anything else.

Regards,

David A. Ramdon, RN, MSN, FLMI

Good morning,

This email serves as an exit interview to the routine Compliance Evaluation Inspection (CEI) conducted by the Florida Department of Environmental Protection (DEP) on Thursday, December 17, 2020 to determine your facility's compliance with Federal and state hazardous waste regulations. Thank you again for your time and assistance throughout the inspection.

Please submit the following documentation for the Department to review:

- Description of facility operations (as we discussed on the phone, my understanding is that you're only picking up biomedical waste as of now).
- Description of the three vehicles in your fleet (type of truck, make/model, and

what type of waste each truck picks up).

- A copy of the facility's Contingency Plan (Spill Response Plan if a spill were to occur on-site at your facility or during transit in one of your fleet vehicles). If you do not already have a written Contingency Plan, I will provide you with a template.
- Information pertaining to employee and/or driver training, what the training program consists of, and the date training was last conducted. This training should be conducted to ensure your drivers know what to do in the event of a hazardous waste spill.

As discussed on the phone, please view the requirements for a Hazardous Waste Transfer facility located here. Keep in mind that you may need to re-notify as a Transfer facility once you start picking up hazardous waste if you intend to store the hazardous waste for more than 24 hours.

Please submit the requested documentation by close-of-business Tuesday, January 5, 2021. Thank you for your assistance with this matter. Please do not hesitate to reach out if there are any questions or concerns.

Regards,
