---

Mr. Adak,

We have received your request for an extension to supply material requested in our November 27, 2012 letter. At this time we can only grant you an additional 30 days to provide your response. If at that point additional time is required you shall submit the responses that you have finished and provide an explanation for why additional time is still required to address all the comments.

Therefore, the responses are due by January 26, 2013.

Please contact me if you wish to discuss this matter further.

Sincerely,

Anthony R. Tripp, Ph.D., P.E.
Professional Engineer III
Hazardous Waste Regulation Section

Subject: Ricky's Oil Extension Request

Good afternoon, Anthony,

Thanks for taking my call earlier regarding the extension request. ECT is requesting an extension to prepare a response document to FDEP's comment letter dated November 27, 2012 for Ricky's Oil & Environmental Services, LLC (permit # 61835-HO-006/61835-SO-007). I have attached the comment letter for your reference. The delay in the submittal is because of the holiday season, responses requiring preparation of new figures, plans and calculations and in addition some of Ricky's staff being out sick, we're anticipating to require another 60 days to prepare the response document and submit to you. Please let me know if you require any additional information to process this request.

Thanks,

Probas Adak, E.I.
