

## RECORD OF TELEPHONE COMMUNICATION

**PERSON CALLING:** Victor San Augustin

**PHONE:** 407-859-4441 ext. 119

**PERSON CONTACTED:** Jeff Waters

**PHONE:** 407-893-3328

**FILE/CASE NAME/#:** Perma-Fix of Orlando, Inc.

**COUNTY:** Orange

**TIME:** 10:00 am

**DATE:** July 6, 2007

### SUMMARY

On July 6, 2007, I contacted Victor San Augustin in response to a voice mail he left for me on July 5, 2007, concerning a used oil release. Victor stated that on July 5, 2007, it was discovered that a used oil hauling truck was actively dripping used oil. Approximately 1 quart of used oil was released in to the facility's parking lot from the truck's pipe storage department after filling with rainwater. The facility hired a vacuum truck to remove the contaminated rainwater in the parking lot. Approximately 300 gallons of used oil and rain water was removed and mixed in with the facility's solid waste consolidation process. No storm water drains, ditches, or waterways were affected.

The Department did not request a discharge report form be completed.
