Mr. Green:

The used oil processing permit that Perma-Fix of Fort Lauderdale currently holds should not require any modifications or notifications due to the stock purchase that you describe below. That permit, which is a combined used oil and solid waste permit, is due to expire November 19, 2012. The renewal application for that permit is due no later than September 20, 2012 and the fee shall be $3,000. If you intend to change the financial mechanism for that facility then you will need to contact Mr. Bheem Kothur at (850) 245-8781 or Bheem.kothur@dep.state.fl.us to obtain the specifics for that process. The old financial mechanism will be released only when the new mechanism is in place.

There are also registrations and certifications for used oil and hazardous waste transporters at this location. No submittals are necessary for these. Similarly, if you intend to change the insurance mechanisms for these registrations and certifications then the new mechanisms would need to be in place before the old could be released.

Please contact me if you have any additional questions.

Subject: Stock Purchase

Dear Mr. Tripp:

Thank you for speaking to me today. I will await your return phone call confirming our conversation.

As mentioned, Triumvirate Environmental Services is proposing to purchase 100% of the stock of Perma-Fix of Fort Lauderdale. The permit holder will not change as

the permit is held in the corporation's name. We understand that specific notices may be required and we look forward to proceeding per your direction.

Thank you for your help.
