Date: Tuesday, July 26, 2011 9:17:00 AM

Jeff,

We have permission to allow AERC one more week delay in submittal of the permit renewal application so that a complete application can be submitted. Please make certain that the application is submitted by August 04, 2011.

Sincerely,

Anthony R. Tripp, Ph.D., P.E.
Professional Engineer III
Hazardous Waste Regulation Section

Subject: RE: AERC Hg Recovery Permit Renewal Application

Good Afternoon Mr. Tripp,

I am contacting you in follow-up to my brief telephone message a few moments ago discussing the current status of the AERC permit renewal application. AERC facility staff and the FL registered P.E. are currently reviewing the draft plan - with plans of having the on-site review by the P.E. occur early next week.

My purpose in contacting you is make you aware that completion of these reviews may run into late next week - the deadline provided in the original extension request. I did not want to get to the middle of next week and realize we had a problem. As such, on behalf of AERC, we are asking if the Department would allow an additional few days to a week to finalize the application package.

We appreciate your flexibility in allowing this extra time should it be necessary.

If you have any questions or comments please let me know.

Sincerely,

Jeffery Smith

Subject: AERC Hg Recovery Permit Renewal Application

Good Morning Mr. Tripp,

The attached letter is being sent on behalf of AERC.com, Inc. with regard to the pending submittal of the mercury recovery permit renewal application for the West Melbourne, FL facility.

We appreciate your review and consideration of this request. A hard copy of the original letter will be placed in the USPS mail by EOB today.

Sincerely,

Jeffery W. Smith, P.E.
