

Memorandum

Florida Department of Environmental Protection

TO: Jim Byer

FROM: Nicole McDonald

NA

DATE: July 18, 2007

SUBJECT: Ring Power, Non Compliance Letter

John Johnson completed a follow up inspection on July 12, 2007 to ensure compliance with violations noted in the Non Compliance letter issued on May 30, 2007. The facility has made large trays to place under the hydraulic pistons to catch the used oil, see pictures below. The pans are located above the sunken concrete/grated floor. All other issues have been addressed and are in compliance.
