Dear Mr. Gerald:

The Department received Mr. Brimblecombe's correspondence dated June 15, 2007 addressing the non-compliance letter issued to you on May 30, 2007. The actions and explanations adequately document compliance or corrective actions for all alleged violations. A Department follow-up inspection of the facility on July 12, 2007 confirmed your return to compliance. As such, we consider this agency investigation resolved and no further agency action is necessary.

We appreciate your cooperation in completing the investigation and in resolving this matter. If you have any questions concerning this or our Hazardous Waste program, please contact Nicole McDonald at 850/595-8360, extension 1252 or by E-Mail at Nicole.McDonald@dep.state.fl.us.

Sincerely,

Michael S. Kennedy, P.G.
