Kim:

See Jeff's response below. I suggest waiting until you are finished with your review and we can revise the document along with any another questions you may have. Let us know if you want us to handle differently.

Thanks,

Mike Kaiser

Subject: RE: JED elevations

Mike,

My apologies as I used the incorrect language when discussing elevations. All

vertical information depicted in the record drawings are elevations based on NGVD. I will provide a new report text changing all msl references to NGVD. Would you like me to submit that change to FDEP now or wait until their review is complete and submit final revisions at that time?

Jeff

Subject: JED elevations

Hi Mike,
I am looking at the CCC for 2012 Partial Closure and it references all elevations to msl. I thought permitted elevations at JED were referenced to NGVD.
