I'll be speaking with Mr. Morris today. Bottom line, I'm asking him to go above and beyond corrective actions if he wants consideration from penalties. If HOWCO feels the corrective actions are enough and don't plan on doing anything else we'll hold the line on our penalties.

Thanks for your all your work and patience on this one, Danielle.

Jeff

Jeff,

Just checking to see where we are at with HOWCO?

Mr. Morris is the Director of Operations and is based out of St. Pete. I assume he is over all operations but I am not 100% sure. My reports have been going to the owner Mr. Hagan, but he usually has Mr. Morris respond back to me.

Do we know if Mr. Morris is over just the Astor plant or all of HOWCO operations?

Tom and Jeff,

Please see the link below for the response from HOWCO regarding the penalties associated with the SFCO and note their reference to DEP not being allowed to assess penalties for "paperwork." Apparently the "word" is out. I went through all the proper channels to get the penalties approved. I believe the penalties are warranted

and it's not just a paperwork issue. They violated their permit and they have a history of non-compliance.

Please advise on how to proceed with the case.
