Move forward with OU as presented.

As for HOWCO, I met with Mr. Morris last week and asked him to put something together for his Astor facility that goes above and beyond our required corrective actions. He plans to have a proposal to us by the end of the week.

Thanks, Janine.

Jeff

Subject: Review process

Tomorrow afternoon we are having a RCRA managers meeting with EPA. We will be discussing open enforcement cases over day 180, which include OU Metal and HOWCO. Just wondering if you have an update for me, so I can relay it to EPA.

Thanks,
Janine Kraemer, CHMM
