Got it. I've added it to our PDF and Word submittal file so it won't be forgotten.

Thanks!

That's fine – there is no requirement to have multiple quotes. But yes, next time please do explain that type of change.

Another minor issue is that the acreage allocated to the LTC mowing is incorrect – it is calculated for the 'flat' acreage of 65.65 - should use the acreage of 65.65 plus the adjustment for the slopes. Please just note it for next time, I don't want to hold this up for such a minor issue.

Thank you,

Correct. We should have mentioned that in the text to explain the change.

I apologize for not adding that language.

We thought it would be more accurate to use the Shaw numbers since they have the LFG contract thru 2015.

Let me know if that makes sense.

Ok got it – so the Aug 2013 estimate is the 2011 Shaw quote adjusted for inflation:
$339,974 x 1.02 x 1.017 = $352,668.63

Kim,

Attached December 2012 Ops permit renewal LFG cost estimate.

Let me know questions.
