Ms. Jacobs,

This is to supplement the voicemail I left on your phone earlier today. If I recall correctly, the individual who signed as both the facility owner and operator on the permit will no longer be filling those roles. If that is correct, then the current permit will need to be transferred as described in our December 19, 2012 correspondence. The permit transfer will be required prior to switching the letters of credit. Please also provide a letter of delegation for the new individual who will be signing on behalf of the company.

I look forward to working with you to bring this project to a successful conclusion.

Sincerely,

Randy J. Miller, II

Subject: RE: AERC.Com, Inc., Florida Permit

General Miller,
As I indicated in my voice message to you this morning, the AERC.Com, Inc. matter has finally closed. Therefore we plan to send you a new original letter of credit from CapStar Bank on behalf of AERC.Com to replace the financial assurance letter of credit currently being held by Florida for AERC.Com.

The cover letter will request the State of Florida return the original letter of credit issued by Lafayette Ambassador Bank as the bank will not cancel the old letter of credit without receiving their original letter of credit. Please let me know if there is any issue with regard to returning the original Lafayette letter of credit once you have replaced it with the CapStar letter of credit.

Again, thank you for working with AERC.Com. It has been a pleasure working with you and the Department.

Regards,
Sheri Jacobs

Subject: AERC.Com, Inc., Florida Permit

Ms. Jacobs,

In accordance with our conversation yesterday, I have attached a copy of a portion of the AERC.Com, Inc., permit renewal application of August 2011 for the mercury recovery facility located in West Melbourne, Florida. They show Mr. Landmesser signed as both Facility Operator and Facility Owner. An electronic copy of the complete document (too large to e-mail), and all documents associated with this facility, can be accessed by going to http://dwmedms.dep.state.fl.us/Oculus/servlet/login and selecting the "PUBLIC OCULUS LOGIN" button. Select "Hazardous Waste" from the Catalog list and "Permitting Authorization" from the Profile list. Then type in FLD984262782 for the Facility-Site ID to search for documents. Form 62-730.900(1)(a), Florida Administrative Code, available at http://www.dep.state.fl.us/waste/quick_topics/forms/documents/62-730/730_1a.pdf will transfer the permit from Mr. Landmesser to the person that will be responsible when the transaction is completed. There is a $50 fee associated with this transfer. The current 8700 form on file with the Department is sufficient and will require no alteration.

In addition to the 62-730.900(1)(a) form, I also request that a formal letter of delegation be provided for the individual who will act as the authorized agent on behalf of the corporation. Attached are also copies of the current financial assurance documents the Department has on file for AERC.Com, Inc. Please review these documents and let me know if any changes are anticipated. Should the name or address of the corporation change, an amendment reflecting that change on each financial document must be submitted to the Department.

If you have any questions or concerns, please do not hesitate to contact my office. If you have specific questions regarding accessing documents in Oculus, please contact Tony Tripp at (850) 245-8766 or Anthony.tripp@dep.state.fl.us

Sincerely,
