---

Hi Steve – Please see attached final revisions to the Cell 17 permit documents. Per our meeting we are including the following:

- Section 4 - Cell 17 Plan Set to be replaced in its entirety
- Figure 1 Site Map to show GP-14 as To Be Abandoned and GP-14R as Installed
- Updated Engineering Report to address the status of GP-14 and GP-14R.

I think that's everything we covered in the meeting. Please let me know if I've forgotten anything or you need any additional information for permit issuance.
Thanks Again!
Lisa
