**First Notice of Deficiencies**

Mr. Jeff Curtis:

Your application for a hazardous waste permit has been reviewed and found to be incomplete. The required information and amendments necessary to complete your application are itemized as follows –

1. The total closure cost estimate proposed for the recent permit application is less than half that agreed upon for the 2002 permit. Justification for the reduced cost of closure needs to be specified before Department approval can be issued.
2. Facility personnel must successfully complete an approved training program within six (6) months of employment or assignment to a facility or to a new position at the facility pursuant to 40 CFR 265.16(a) & (b). The training guidelines and schedule are absent from the permit application.

When a permit application is incomplete, all processing of the application is suspended. You are hereby advised to provide us with the requested additional information pursuant to Florida Administrative Code (F.A.C.) Rule 62-730.220 and Chapter 403.722, Florida Statutes (F.S.).

If you cannot submit this information within thirty (30) days, you must provide a detailed schedule with dates when this information will be submitted. You are encouraged to contact this office to discuss the deficiencies noted by the application review. This exchange of ideas will assist you in developing a complete and adequate response. If you would like to arrange a meeting or have any questions, please call me at 850-245-8786.
