Subject: Continuation of the weep repair
Date: Wednesday, October 12, 2011 2:49:59 PM

Gloria and Brad,

In accordance with our operations plan Volusia County Solid Waste is notifying FDEP of a weep repair. This is a continuation of the weep repair that was started on October 5, 2011. As indicated the repair is moving eastward as needed as our working face moves eastward. The area excavated on October 11, 2011 was approximately 4 feet in width, 6 feet in depth, and 30 feet in length. The excavated area was back filled with 18 tons of drainage rock and covered with 126 cubic yards of fill dirt. Again, the repair will continue eastward as the working face moves eastward and we will update FDEP as this occurs.

If you have any questions or need additional information please let me know.

Thanks,
Jennifer Stirk
