Subject: RE: EO-56666, Sherry Hutchinson - regarding Vista Landfill
Date: Friday, December 02, 2011 10:23:36 AM

TO: Joni Scott

Since the e-mail from Ms. Hutchinson does not have any question to answer, I will not be responding to her.

As of today, we have not received an application from Waste Management to change Vista Landfill from a Class III to a Class I landfill. They have only approached the city of Apopka about the change. Orange County is determining whether it has regulatory authority concerning the change in use.

Tom

Hi Christine,

Since Lisa is out of the office, could you please route this referral to the appropriate staff for their handling?

Thanks and have a great weekend,

Joni Scott

Good morning Lisa,

I'm sending this as "Review and Reply at Your Discretion", so a response is not necessary unless staff feels the need to write one. If a response is prepared, please ask staff to include me in the cc list.

Thanks,

Joni Scott

Subject: Class 1 Dump Orange County

I'm sure you have heard about the plans to change the Vista Landfill from a Class 3 to a class 1 landfill.

The residents of the City of Apopka are in an uproar about this as it has been proven time and time again that this would have a negative in pack on the community . It will effect the quality of the air so close to schools and homes, not to mention the effect on ground water that will effect our wells and the water fields that feed Disney.

Orange County already has a Class 1 dump that we are currently paying for, and if this private managed dump is allowed it would effect the financial stability of the Orange County Class 1 dump.

Please join us and our county commissioner Fred Brummer to stop this proposal that will allow Waste Management to push this through with their power and top legal counsel. This is not about money but quality of life now and in the future for our children and grandchildren.

Please help in any way! Your support will strengthen our support.

Thank You,
Sherry Hutchinson
