Subject: Disposal Quote

Good afternoon,

Liberty Tire would be able to provide recycling and/or disposal of approximately 225 tons of used tires, which is roughly equivalent to 20,000 PTE's (Passenger Tire Equivalents) at the rate of $88.00 per ton or $1.00 per PTE if you delivery to the Liberty Tire Recycling facility in Rockledge, Florida. If Liberty Tire is to pick up the tires at your location and provide the transportation, the charge will be $132.00 per ton, which is the equivalent to $1.50 per PTE, plus a variable Fuel Surcharge.

If you should need additional information, please do not hesitate to contact me.

Sincerely,

Jim Kington

Jim Kington
