Subject: JED ASR Alternate Materials Request
Date: Wednesday, May 01, 2013 10:51:39 AM

Mike,

I spoke to Richard Tedder in Tallahassee regarding your request to run alternate materials through the ASR. The Department will require notification, via email, of the alternate material to be processed with a description of the material and a statement that it meets the requirements of Specific Condition 2.C.3. Authorized Waste Types. As an attachment to the notification, provide the Department a revised copy of the Operation Plan which incorporates the requested material into the ASR section of the plan.

If you have any questions, please give me a call.
