Thanks. That's what I was going to suggest. Although we are at mid year, it didn't seem reasonable to double inflate Cell 9 within a years time.

Hi Mike,
No don't inflate the unit costs for Cell 9 – let's wait till next March and do them all at the same time. That will get you back on a 1/yr at March time frame for all the cost estimate adjustments.
Thanks,

Kimberly Rush, P.E.

Subject: Cell 9 Financial Assurance Estimate

Kim:

We are working on the financial assurance cost estimates for the Cell 9 area at our JED landfill facility. The closure and long term care cost estimates for Cells 1-8 were recently updated last fall and approved under the 5-year permit renewal application for the facility. Do you want us to inflate the unit costs for Cell 9 or wait until March of next year and inflate all of the Cells at one time. We did not inflate the estimates for Cell 1-8 this past March because they were updated just prior to that date. If you do want us to inflate Cell 9, should we use 1.02 March 2013 inflation factor?

Thanks,

Mike Kaiser
