Good Morning Melissa,

The Lena Road Landfill site is not being used for storage/processing of disaster debris.

So yes please close out the Landfill site in your database.

Cheers,

Candie

Candie,

Was the Lena Rd. LF site used for storage/processing disaster debris? If not, I will close this out in our database.

Please feel free to contact me with any questions or concerns.

Thanks, Melissa

Good Morning Melissa,

It's that time again for Manatee County TDSRs renewal request, please. I believe that our current approval based on the latest EFO expires December 4th.

Debris Operations continue for Manatee County Utilities and we are utilizing the following three debris sites to process vegetative debris:

- GT Bray (TDSRS-100676),
- Buffalo Creek (TDSRS-100672), and
- Lakewood Ranch (TDSRS-100680).

Please let us know if there is anything you may need for the requested extension.

Cheers,
Candie

Candie,

The EFO was expected to be extended today, but I have not yet received word that the Secretary has signed it. I know he was traveling today (because he was in our office!) therefore, I expect to get extension letters out early next week.

Please feel free to contact me with any questions or concerns.

Thanks, Melissa

Subject: Manatee County Utilities Follow up extension request for continued operations at Disaster Debris Management Sites

Greetings Melissa,

Manatee County Utilities requests continued use of the currently operating DDMS sites – GT Bray (TDSRS-100676), Buffalo Creek (TDSRS-100672), and Lakewood Ranch (TDSRS-100680) as required per Item 6 of the DDMS Extension authorization letter for Hurricane Irma (October 4, 2017).

Our debris operations continue with use of the three activated TDSRS locations for processing/reduction of the vegetative debris.

Additionally, we followed up with the State Historic Preservation Office regarding the Buffalo Creek site. Jason Aldridge concurred that the current debris reduction operation and its location do not overlap the nearby archeological site. Please find the attached emails focused on the SHPO opinion.

Please advise if there are any additional information items needed for the continued use/extension request.

Cheers,
Candie

Subject: RE: Follow up request for addition of Landfill Stage II site to Disaster Debris Management Site submission

Good Afternoon Melissa,

Manatee County Utilities' debris operations are ongoing and the Stage II temporary debris site is still utilized as part of our strategy. We wanted to check in with you in anticipation of an extension to the original EFO and request an extension to our approval for the Stage II debris site as well.

Please let us know if there is anything that you would need as part of the requested extension for the Stage II temporary site.

Cheers,

Candie

Candie,

Please see attached letter for Stage II DDMS authorization for Irma. The extension letters for Manatee's other sites are forthcoming.

Please feel free to contact me with any questions or concerns.

Thanks, Melissa

Good Morning Melissa,

Thank you so much for the add-on for the Landfill!!

Jeanne Detweiler will remain as the on-site contact for this location as well. Splendid idea to wait until the EFO is reissued so any planned location operations would not be uninterrupted.

Cheers,

Candie

Candie,

We can add the DDMS site to the existing Lena Road Facility number so we don't need any additional locational information. Who will be the on-site contact? Additionally, I expect the EFO to get extended next week, so if possible, I would like to wait to authorize this site until after it has been issued. The current one expires Oct 4, so it will happen before COB on that date.

Please feel free to contact me with any questions or concerns.

Thanks, Melissa

Subject: Follow up request for addition of Landfill Stage II site to Disaster Debris Management Site submission

Good Afternoon Melissa,

Happy Friday!

I wanted to follow up on our brief conversation about adding Stage II of the Landfill location as a staging area for debris. We are one step closer to the burning option and we would be ever so grateful for the Stage II location being added.

Please let us know what documentation/letter you would need and we will make sure that it arrives asap.

Cheers,
Candie
