The Florida Department of Environmental Protection has reviewed your application for registration as a transporter or handler for universal waste lamps and devices destined for recycling. Based on the information received, the facility located at **10100 Rocket Blvd, Orlando, FL 32824-8565** has been registered through **March 1, 2010** with the following status:

Facility ID # **FLD980559728**
Transporter of Universal Waste Lamps and Devices
Transfer Facility for Universal Waste Lamps
Transfer Facility for Universal Waste Devices
Small Quantity Handler Facility for Universal Waste Lamps and Devices
(Less than 2,000kg of Lamps (8,000) and/or 100kg of Devices for 1 Year)

The registration form for the year **2010** will be sent to the contact person on your application.

Chapter 62-737, Florida Administrative Code (F.A.C.), (copy enclosed) specifies several other requirements including packaging, training and record keeping for transporters and handlers of and reverse distribution programs for universal waste lamps or devices destined for recycling. These requirements are simple, flexible and make good business and environmental sense (summarized on enclosed fact sheets).

This registration does not allow you to transport or handle universal waste lamps or devices which are destined for landfill or other disposal. The transportation or handling of universal waste lamps or devices destined for disposal is subject to our hazardous waste management regulations under Chapter 62-730, F.A.C.

If any of your facility's information on the Universal Waste Lamp and Device Transporter and Handler Registration Form changes, please notify me at Mail Stop 4555 at the address above. I can also be contacted at (850) 245-8759 or at Laurie.Tenace@dep.state.fl.us.

Subject: 2008 Annual Universal Waste Lamps/Devices Report and
Registration Renewal
Perma-Fix of Orlando, Inc. (PFO), 10100 Rocket Drive., Orlando
EPA ID Number FLD 980 559 728

Dear Ms. Tenace:

This submittal shall serve as Perma-Fix of Orlando, Inc.'s (PFO) 2008 Annual Universal Waste Lamps/Devices Report and Registration Renewal. Enclosed with this letter are the following documents:

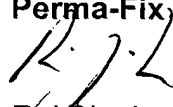

- a. Completed Universal Waste Lamp and Device
Transporter / Transfer Facility Information Checklist
- b. Completed Form 8700-12FL

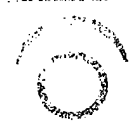

PFO's universal waste lamps/devices transfer facility located at 10225 General Drive in Orlando, moved all of its operations to the PFO facility located at 10100 Rocket Blvd., approximately 75 yards east, around May, 2008. The property on General Drive has been clean closed and sold to another third party in 2008. Universal waste lamps and devices reported in the attached checklist reflects lamps managed by both the General Drive and Rocket Blvd. facilities. This means there was no double counting in the attached report.

If you have any questions or need additional information, please call me or Victor San Agustin at 407/859-4441.

Sincerely,

Perma-Fix of Orlando, Inc.

PROJECT: Operation of a Hazardous Waste Container
Storage Unit and Implementation of HSWA
Corrective Action Requirements

Pursuant to authorization obtained by the Florida Department of Environmental Protection (FDEP) under the Resource Conservation and Recovery Act [42 United States Code (U.S.C.) 6901, *et seq.*, commonly known as RCRA] and the Hazardous and Solid Waste Amendments of 1984 (HSWA), this permit is issued under the provisions of Section 403.722, Florida Statutes (F.S.) and Chapters 62-4, 62-160, 62-710, 62-730, 62-777 and 62-780, Florida Administrative Code (F.A.C.). This permit replaces expired permit 26916-HO-005. The above-named Permittee is hereby authorized to perform the work or operate the facility shown on the application dated May 9, 2008 with first revision dated August 14, 2008 and second revision dated September 18, 2008 and approved drawing(s), plans, and other documents attached hereto or on file with the Department and made a part hereof herein referred to as "the Application". The facility is located at 10100 Rocket Boulevard, Orlando, Florida 32824 (See Attachment A). The RCRA-regulated units are specifically described as follows:

Container Storage Unit:

Perma-Fix of Orlando is permitted to store a maximum of 824 (55 gal) drums, or equivalent, in three sub-units in the Container Storage Building (see Attachment B). Each individual storage cell located within the Container Storage Building has separate secondary containment designed to isolate incompatible wastes that may be stored in adjacent cells. A synthetic coating material resistant to solvents and corrosives has been applied to the floor surface to protect the floor and reduce its porosity. The dimensions of the secondary containment systems are such that they are capable of containing spills the size of at least 10% of the maximum storage capacity of the cells. The drums are stored on pallets and may be double stacked. Incompatible wastes are stored in separate cells.

The Permittee may store non-hazardous wastes in the permitted container storage unit. In such a case, PFO shall not exceed the permitted capacity of the unit after counting the non-hazardous waste quantity.

Waste Consolidation:

Perma-Fix of Orlando consolidates compatible hazardous wastes at two locations at the facility. The first location is inside the north building and the second location is on the west side of the north building. The consolidation areas are identified in Attachment B. Consolidation activities are part of storage. The amount of hazardous wastes in the consolidation areas are counted toward the maximum hazardous waste storage capacity.

Transfer Facility:

Perma-Fix of Orlando is registered with the Department as a hazardous waste transfer facility in accordance with Rule 62-730.171, F.A.C. The transfer facility provisions allow a hazardous waste transporter to hold waste at the transfer facility for ten days or less while in transportation to another facility. Perma-Fix of Orlando may use the container storage unit to hold waste regulated under the transfer facility provisions for short periods of time. Perma-Fix of Orlando shall ensure that the transfer facility waste is accumulated in areas that are clearly demarked as transfer facility areas and that are in compliance with the requirements of Rule 62-730.171, F.A.C., including but not limited to 40 CFR Part 265, Subpart I. The amount of hazardous wastes in clearly demarked transfer facility areas that are in compliance with Rule 62-730.171, F.A.C. are not counted toward the maximum hazardous waste storage capacity.

Perma-Fix of Orlando is registered with the Department as a used oil transfer facility in accordance with Rule 62-710, F.A.C. The Permittee shall comply with the standards of 40 C.F.R. Part 279, Subpart E and the registration, record keeping and certification requirements found in Rules 62-710.500, 62-710.510 and 62-710.600, F.A.C.

Solid Waste Management Units:

Eleven solid waste management units (SWMUs) were identified in the United States Environmental Protection Agency (EPA) HSWA permit issued on August 10, 1995, as described in Appendix A of this permit. Confirmatory sampling required for SWMU 7 (Catch Basin) and SWMU 9 (Stormwater Retention Area) were conducted. EPA issued a letter on August 20, 1997 stating that SWMU 7 and SWMU 9 require no further action. SWMU 7 and SWMU 9 have been filled and covered and are re-named Former Catch Basin and Former Stormwater Retention Area. The replacement Stormwater Retention Area is designated as SWMU 11. No remedial corrective action is required at the facility at this time.

The Permittee is required to investigate any releases of hazardous waste or hazardous constituents at the facility regardless of the time at which waste was placed in a unit and to take appropriate corrective action for any such releases. Solid waste management units (SWMUs) and areas of concern (AOCs) identified to date are listed above and in Appendix A. Pursuant to 40 Code of Federal Regulations (CFR) 260.10 [as adopted by reference in Rule 62-730.020(1), F.A.C.], the corrective action requirements of this RCRA permit extend to all contiguous property under the control of the Permittee (see Attachment A, a map which demarks the property boundaries of land under the Permittee's control) and to all contamination that originated from discharges that occurred at the contiguous property under control of the Permittee.

This permit is based on the premise that information and reports submitted by the Permittee prior to issuance of this permit are accurate. Any inaccuracies found in this information or information submitted as required by this permit may be grounds for termination or modification of this permit in accordance with Rule 62-730.290, F.A.C and potential enforcement action.

Compliance with the terms of this permit does not constitute a defense to any order issued or any action brought under Section 3008(a), 3008(h), 3004(v), 3008(c), 3007, 3013 or Section 7003 of RCRA, Sections 104, 106(a), 106(e), or 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 *et seq.*, commonly known as CERCLA), or any other law providing for protection of public health or the environment. The Permittee is required to comply with applicable provisions of 62-730 F.A.C. and 40 CFR Parts 260 through 270, and 279 adopted therein, even when not specifically referenced in this permit.

The following documents were used in the preparation of this permit:

1. Operating Permit H048-118812 issued March 27, 1987.
2. Permit Modifications issued February 24, 1988 and March 25, 1991.
3. Construction Permit Application submitted October 29, 1991 and revised November 16, 1992.
