3/13/2009 9:29:38 AM	Theresa and I called Mark Nickerson to clarify address on the UW checklist. He stated the 4717 Orange Dr is the corporate office not where materials are stored.	Peters_Y
3/13/2009 9:32:23 AM	According to Mark Nickerson, when World Petroleum Corp bought out Petroleum Management Inc, they chose to utilize PMI's EPA ID (FLD980709075). Theresa asked Mark to submit an 8700-12FL to close the other EPA ID under ME ID 42705 (FLR000096974) and he said he would.	Peters_Y

Subject: World Petroleum waste handling

Hello, John. Thank you for taking the time to discuss the concerns you had with the World Petroleum Corp. registration. As we discussed, the information you have on the form is correct with the exception of the quantities for Universal Waste Management. WPC sometimes is required by its clients to transport and store (normally less than ten days) mercury lamps, some mercury-containing devices (thermostats, switches, etc.), and pesticides. I mistakenly estimated these quantities too high. The maximum quantity of lamps and devices managed will be less than 1000 pounds. For pesticides, the quantity will be less than 600 pounds.

I thought the issue regarding the EPA ID numbers had previously been resolved. Nonetheless, I will send an 8700-12 form closing EPA ID FLR 000096974.

Thank you again for your patience and assistance. If you need to contact me, my phone number is (479) 353-1368.

I am authorized by Mr. Eric Miranda to address his environmental issues. I asked Eric who Mr. Nickerson is, and was told that he is a WPC Project Manager.

I trust this addresses all your concerns. If not, please contact me.
