**RE: Unmanifested Waste Report, Parker Hannifin Corp., 3580 Shaw Blvd.,
Naples, FL 34117. EPA ID Number FLR000060848.**

Dear Ms. Kantor:

Enclosed please find an unmanifested waste report for the above listed generator. The Safety-Kleen Boynton Beach branch performed Vacuum services at two customers on 7/29/09. At the end of the day the Safety-Kleen Vacuum representative arrived at Cliff Berry, Inc. in Miami to off-load. A sample was taken by Cliff Berry personnel and the load was determined to be high in Copper. Safety-Kleen made the decision to bring the truck back to Boynton Beach and take its' own truck sample and send to the Safety-Kleen tech center for analysis along with samples from the two customers serviced on this day. Results from analyses were received by the branch on 8/5/09 and confirmed that the Safety-Kleen Vacuum truck sample and sample taken from Parker Hannifin Corp. were 16 ppm for Chromium (D007). Safety-Kleen has locked down the Vacuum truck until we arrange for proper disposal of the material it contains and decontamination of the truck takes place. A material profile has been prepared for this material and we are in the process of obtaining quotes for proper disposal at this time.

If you have any questions or require additional information please do not hesitate to contact me at (561) 523-4719.

Best regards,

Jeff Curtis
EHS Manager, Florida
