FILE

Dear Ms. Gravelle:

The Florida Department of Health in Pinellas County (DOH Pinellas) has reviewed the Second Quarter Post Active Remedial Monitoring (PARM) Report dated February 21, 2014 (received February 26, 2014), for the September 29, 1998 petroleum discharge at the above referenced site. The above referenced report was found to be adequate to meet the Preapproval Program requirements and demonstrates that the work was satisfactorily performed as outlined in Event #2 of the Florida Department of Environmental Protection (FDEP) Work Order # 2013-52-W6300A. You may submit an invoice for work completed under Event #2 of the above referenced work order. Invoices should reflect appropriate adjustments for reductions or approved increases in cost.

Please continue PARM scope of work as outlined in Event #3 of the above referenced work order. The quarterly PARM Report submittal will be due into this office no later than June 18, 2014. This Department requests that written notification be provided at least three days prior to conducting field activities and sampling events. If you have any questions, please feel free to contact me by telephone at (727) 538-7277, extension 7919 or by email at Scott.Lashbrook2@flhealth.gov.

Sincerely,

Scott Lashbrook
