**STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION**

In the Matter of an
Application for a Permit by:

*Perma-Fix of Florida, Inc.
1940 NW 67th Place
Gainesville, Florida 32653*

*DEP File No.: 17680-010-HC
Alachua County*

INTENT TO ISSUE

The Florida Department of Environmental Protection (“the Department”) gives notice of its intent to issue a Permit (copy enclosed) for the proposed project as detailed in the application specified above, for the reasons stated below.

On December 9, 2009 , the applicant, Perma-Fix of Florida, Inc., applied to the Department and provided supplemental information on March 10, 2010, for a Permit to operate a hazardous waste treatment and storage facility, and replace one treatment unit at Perma-Fix of Florida, Inc.’s site at Gainesville, Florida. The Department has permitting jurisdiction under Section 403.722, Florida Statutes (F.S.) and Florida Administrative Code (F.A.C.) Chapters 62-4 and 62-730. The project is not exempt from permitting procedures. The Department has determined that an operating permit is required for the proposed work. The Department intends to issue the Permit with the conditions included in the enclosed draft.

Pursuant to Sections 403.722 and 403.815, F.S., and Rule 62-730.220, F.A.C., you (the applicant) are required to publish at your own expense the enclosed Newspaper Notice, and to broadcast over a local radio station the enclosed Radio Announcement. The notice shall be published one time only within 30 days in the legal ad section of a daily, major newspaper of general circulation in the area affected. The newspaper must contain at least 25 percent of its words in the English language, be for sale to the public generally, be available to the public generally for the publication of official or other notices and customarily contain information of a public character or of interest or of value to the public. The newspaper must have been in existence for one year, unless no such newspaper exists in the affected area (See Sections 50.011 and 50.031, F.S.). Where there is more than one daily newspaper of general circulation in the county, the newspaper used must be one with significant circulation in the area that may be affected by the permit. If you are uncertain that a newspaper meets these requirements, please contact the Office of General Counsel of the Department at (850) 245-2242. The applicant shall provide proof of publication to the Department of Environmental Protection at 2600 Blair Stone Road, Mail Station #4560, Tallahassee, Florida 32399-2400; Attention: Administrator, Hazardous Waste Regulation Section, within 14 days of publication. Failure to publish the

notice and provide proof of publication within the allotted time may result in the denial of the Permit.

The Radio Announcement shall be broadcast one time only within 30 days on a licensed commercial radio station of sufficient power to be clearly received in the area that may be affected by the permit. **Broadcast of the notice shall occur between 8:00 a.m. and 10:00 p.m.** The applicant shall provide proof of broadcast to the Department of Environmental Protection, 2600 Blair Stone Road, Mail Station #4560, Tallahassee, Florida 32399-2400; Attention: Administrator, Hazardous Waste Regulation Section, within 14 days of the broadcast. Failure to broadcast the announcement and provide proof of the broadcast within the allotted time may result in the denial of the Permit.

The Department will issue the Permit with the attached conditions unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S., or all parties reach a written agreement on mediation as an alternative remedy under Section 120.573, F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth in the enclosed Newspaper Notice. The administrative rights explained in the enclosed Newspaper Notice apply to you, as applicant and Permittee. Your 45-day period for requesting an administrative hearing begins on the date you receive this Intent.

If you should have any questions please call Merlin Russell at (850) 245-8796.

Executed in Tallahassee, Florida.

Newspaper Notice:

**FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO ISSUE**

THE FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION (FDEP) GIVES NOTICE OF ITS INTENT TO ISSUE A PERMIT UNDER SECTION 403.722, FLORIDA STATUTES (F.S) AND CHAPTERS 62-4 AND 62-730, OF THE FLORIDA ADMINISTRATIVE CODE (F.A.C) TO PERMA-FIX OF FLORIDA, INC. with respect to Perma-Fix of Florida, Inc., 1940 NW 67th Place, Gainesville, Florida 32653, having assigned facility I.D. number FLD 980 711 071.

The draft RCRA Permit contains the conditions for Operating Permit 17680-010-HC. The Permit is intended to be issued to operate and construct a hazardous waste treatment and storage facility, and replace one treatment unit at Perma-Fix of Florida, Inc.'s site at Gainesville, Florida.

Copies of the application and the draft Permit are available for public inspection during normal business hours 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the FDEP, Jacksonville District Office, Suite 200B, 7825 Baymeadows Way, Jacksonville, Florida 32256, (904) 807-3300 and at the Division of Waste Management, Bureau of Solid & Hazardous Waste office at 2600 Blair Stone Road, Tallahassee, Florida 32399-2400, (850) 245-8796.

Electronic copies of the application and draft permit can be accessed in the Department's OCULUS data system located at <http://dwmedms.dep.state.fl.us/Oculus/servlet/login>

A person whose substantial interests are or will be affected by the Intent to Issue may petition for an administrative determination (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in FDEP's Office of General Counsel, Agency Clerk, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000. Petitions filed by the permit applicant and any parties entitled to written notice under Section 120.60(3), F.S. must be filed within 45 days of receipt of the Intent. Petitions filed by any other persons must be filed within 45 days of publication of this notice or receipt of the Intent, whichever occurs first. A petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within this time period shall constitute a waiver of that person's right to request a hearing under Sections 120.569 and 120.57, F.S. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which FDEP's action is based must contain the following information:

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the FDEP Permit File Number and the county in which the project is proposed; (b) A statement of how and when each petitioner received notice of FDEP's action or proposed action; (c) A statement of how each petitioner's substantial interests are affected by FDEP's proposed action; (d) A statement of all material facts disputed by petitioner, or a statement that there are no

disputed facts; (e) A statement of facts which petitioner contends warrant reversal or modification of FDEP's proposed action; (f) A statement of which rules or statutes the petitioner contends require reversal or modification of FDEP's proposed action; and (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the proposed action.

A petition that does not dispute the material facts on which FDEP's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that FDEP's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the FDEP have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Any person may request a public meeting regarding the proposed permitting decision pursuant to Section 403.722(10), F.S. A request for a public meeting is not equivalent to a request for a formal or informal administrative hearing. Public meetings are not evidentiary in nature, and information submitted at a public meeting is for non-binding consideration only. A public meeting is not subject to court or appellate review. A request for a public meeting must be filed (received) in the Office of General Counsel Agency Clerk, within 45 days of publication of this notice. Failure to file a request for a public meeting within this time period shall constitute a waiver of any right such a person may have to request a meeting under Section 403.722(10), F.S.

Mediation is not available in this proceeding.

Radio Announcement:

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF INTENT TO ISSUE PERMIT

The Florida Department of Environmental Protection gives notice of its intent to issue a Permit to Perma-Fix of Florida, Inc. The Permit authorizes Perma-Fix of Florida to operate a hazardous waste treatment and storage facility, and replace one treatment unit at a facility located at 1940 NW 67th Place, Gainesville, Florida.

A person who is or will be substantially affected by the Department's proposed permitting decision may file a petition for an administrative hearing in accordance with Sections 120.569 and 120.57, Florida Statutes. Any person may request a public meeting pursuant to Section 403.722(10), Florida Statutes. A petition for an administrative hearing or a request for a public meeting must be filed with the Agency Clerk, Office of General Counsel within forty-five days of this announcement.

Mediation is not available in this proceeding.

For more information concerning requirements of the petitioning process and the necessary time frames for filing a petition, submitting comments or requesting a public meeting, or obtaining a copy of the permit, please contact the Office of General Counsel in Tallahassee at (850) 245-2242, or 3900 Commonwealth Blvd, MS 35, Tallahassee, FL 32399.

Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
DATE OF ISSUE: DRAFT
EXPIRATION DATE: June 8, 2015

ATTENTION:
Mr. Raymond Whittle
Vice President

COUNTY: ALACHUA
LATITUDE / LONGITUDE: 29°42'08" N/82°20'51" W
PROJECT: OPERATION OF A HAZARDOUS WASTE
TREATMENT AND STORAGE FACILITY AND
REPLACEMENT OF ONE TREATMENT UNIT.

Pursuant to authorization obtained by the Florida Department of Environmental Protection (FDEP) under the Resource Conservation and Recovery Act [42 United States Code (U.S.C.) 6901, *et seq.*, commonly known as RCRA] and the Hazardous and Solid Waste Amendments of 1984 (HSWA), this permit is issued under the provisions of Section 403.722, Florida Statutes (F.S.) and Chapters 62-4, 62-160, 62-730, 62-777 and 62-780, Florida Administrative Code (F.A.C.). This permit replaces expired permit 17680-009-HC. The above-named Permittee is hereby authorized to perform the work or operate the facility shown on the application dated December 9, 2009 and additional information dated March 10, 2010 which are incorporated herein and collectively referred to as the "permit application." The "permit application also includes any approved drawing(s), plans, and other documents that are specifically identified and incorporated by reference. The RCRA-regulated units are specifically described as follows:

1. To operate one (1) enclosed container storage area, located in the Treatment and Operations Building (TOB), as illustrated in Figure I.D.1 and described in Part II, Section B of the permit application dated December 9, 2009, and/or subsequent revisions, and shown in Attachment D of this permit. The TOB container storage area contains seven (7) zones for storage of hazardous waste in containers meeting D.O.T. specifications and in size of 718 gallons (B-25 box) or less. The permit authorizes the storage of a maximum volume of 35,200 gallons of hazardous waste in the TOB storage area. The container storage area will include a containment system that consists of concrete curbing at least 4 inches high to prevent run-off. The hazardous waste codes for the waste to be stored in the TOB are listed in Attachment A of the permit.
2. To operate the following hazardous waste treatment units located in the TOB:
 - A. PF-I process (treatment in containers) as described in Attachment I.D.1 and Appendix II.B.1, and illustrated in Figures I.D.11.2, I.D.12 and I.D.16 through I.D.18 of the permit application dated December 9, 2009 and/or subsequent revisions. The PF-I process is a two-step process for the permanent stabilization and/or solidification of hazardous and mixed waste conducted primarily in 55-gallon drums.
 - B. Existing PF-II process (miscellaneous treatment unit) as described in Attachment I.D.1 and Part II, Section I, and illustrated in Figures I.D.2, I.D.11.3, I.D.12, and I.D.16 through I.D.18 of the permit application dated December 9, 2009 and/or subsequent revisions. The PF-II process consists of thermal desorption and/or chemical oxidation/reduction in a treatment unit. The existing PF-II treatment equipment is planned to be replaced with continuous PF-II treatment

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- equipment and feed preparation equipment in the TOB by December 2014 as described in Attachment II.I.7 of the permit application dated December 9, 2009 and/or subsequent revisions.
- C. Lab Pack decommissioning as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - D. Fuel blending activity as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - E. Mercury amalgamation as described in Attachment I.D.1 and Appendix II.B.3 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - F. Non-elementary neutralization as described in Attachment I.D.1 and in Appendix II.B.4 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - G. Deactivation process as described in Attachment I.D.1 and Appendix II.B.2 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - H. Treatment using a Drum Rotator as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - I. Solvent Recycling, an activity exempt from RCRA permitting requirements.
 - J. Oxidation/reduction treatment in containers

The above processing will be conducted in the TOB, which is provided with 6-inch thick and at least 5.75-inch high curbing near its walls. Exhaust and fugitive emissions from treatment operations within the TOB will be treated through an air pollution control system consisting of a regenerative thermal oxidizer (RTO)/HEPA filter system. The permitted waste codes for treatment in the TOB are listed in Attachment A of this permit.

- 3. To operate a container storage area, located in the Processing and Storage Building (PSB), illustrated in Figure I.D.4 and described in Part II, Section B of the permit application dated December 9, 2009 and/or subsequent revisions, and in Attachment E of this Permit. The PSB container storage area contains three (3) zones for storage of hazardous waste in containers meeting D.O.T. specifications and in size of 718 gallons (B-25 box) or less. The permit authorizes the storage of a maximum volume of 72,105 gallons of hazardous waste in the PSB storage area. The storage area is covered and has a containment system consisting of 6-inch wide concrete curbing at least 2.5 inches high and two sumps to prevent both run-on and run-off. The permitted hazardous waste codes for the waste stored in this area are listed in Attachment A of this Permit.
- 4. To conduct the following hazardous waste activities located in the PSB:
 - A. Fuel-blending operations including phase separation treatment, decanting and bulking in this area, as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - B. Lab Pack Decommissioning as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - C. Storage and bulking of chemotherapy and pharmaceutical waste as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - D. Chemical precipitation, chemical reduction, neutralization, filtration, flocculation and physical treatment (i.e., sorting and segregation) as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - E. Tank storage as described in condition 5 below.
 - F. Non-elementary neutralization and chemical extraction as described in Attachment I.D.1.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

5. To operate a 3,000-gallon horizontal, aboveground storage tank illustrated in Figure I.D.4 and described in Part II, Sections C of the permit application dated December 9, 2009 and/or subsequent revisions and in Attachment E of this Permit. The storage tank is used for the accumulation and storage of radioactive mixed waste containing ethanol, toluene and xylene that is generated from the LSV process. This tank is located within secondary containment inside the PSB.
6. To operate a container storage area, located in the LSV Processing and Waste Storage Warehouse, illustrated in Figure I.D.7 and described in Section II.B of the permit application dated December 9, 2009 and/or subsequent revisions, and in Attachment C of this Permit. The LSV container storage area consists of two (2) zones for storage of hazardous waste in containers meeting D.O.T specifications and in size of 718 gallons (B-25 box) or less. The permit authorizes the storage of a maximum volume of 54,340 gallons of hazardous waste in the LSV Processing and Waste Storage Warehouse area. The storage area is covered and has a containment system consisting of at least 2.75" high x 5.5" concrete curbing and rollover berms. The hazardous waste codes for the waste permitted to be stored in this area are listed in Attachment A of this Permit.
7. To operate one (1) hazardous waste container treatment unit for hazardous waste debris treatment, located in the Liquid Scintillation Vials (LSV) Processing Area, described in Attachment I.D.1 (Appendix A) of the permit application dated December 9, 2009 and/or subsequent revisions. The unit is comprised of an approximately 250-gallon stainless steel portable vat, equipped with an emission control hood. The unit is located within the 5 3/4" x 6" concrete curbing of the LSV Processing area of the LSV Processing and Waste Storage Warehouse (LSW). Exhaust and fugitive emissions from debris treatment operations within the LSV area will be treated through an air pollution control system consisting of HEPA filters and a regenerative thermal oxidizer. The permitted waste codes for treatment in the LSV Processing Area are listed in Attachment A of this permit.
8. To conduct the additional following hazardous waste activities located in the LSV:
 - A. LSV Processing as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - B. Repackaging as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - C. Chemical extraction, physical extraction and micro-encapsulation including debris treatment as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - D. Lab Pack Decommissioning as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - E. Solid Waste Management as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - F. Miscellaneous Waste Storage and Transfer as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - G. Fuel Blending as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - H. Mercury Amalgamation as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - I. Non-elementary neutralization as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.

PERMITTEE:
Perma-Fix of Florida, Inc.

Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- J. Treatment using a drum rotator as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
 - K. Deactivation of D003 waste as described in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions.
9. The existing PF-II treatment equipment is planned to be replaced with a newly-constructed, continuous PF-II treatment equipment and feed preparation equipment in the TOB by December 2014 as described in Attachment II.I.7 of the permit application dated December 9, 2009 and/or subsequent revisions. This proposed treatment process will replace the existing PF-II process described in item 2.B. above.

The Permittee is required to investigate any releases of contaminants to the environment at the facility regardless of the time at which waste was placed in a unit and to take appropriate corrective action for any such releases. Solid waste management units (SWMUs) and areas of concern (AOCs) identified to date are listed in Appendix A. Pursuant to 40 Code of Federal Regulations (CFR) 260.10 [as adopted by reference in Rule 62-730.020(1), F.A.C.], the corrective action requirements of this RCRA permit extend to all contiguous property under the control of the Permittee (see Attachment G, a map which demarks the property boundaries of land under the Permittee's control) and to all contamination that originated from discharges at the contiguous property under control of the Permittee.

This permit is based on the premise that information and reports submitted by the Permittee prior to issuance of this permit are accurate. Any inaccuracies found in this information or information submitted as required by this permit may be grounds for termination or modification of this permit in accordance with Rule 62-730.290, F.A.C and potential enforcement action.

The facility conducts transfer facility operations for used oil that is regulated under Chapter 62-710, F.A.C. and 40 CFR Part 279. The facility also operates a mercury-containing lamps and devices transfer facility, in accordance with Chapter 62-737, F.A.C. as discussed in Attachment I.D.1 of the permit application dated December 9, 2009 and/or subsequent revisions. Both transfer operations are located in the LSV Processing and Waste Storage Warehouse, illustrated in Figure I.B.2 of the permit application dated December 9, 2009 and/or subsequent revisions, and in Attachment C of this permit.

The facility conducts Treatability Studies in accordance with 40 CFR Part 261.4(f).

A chain link fence surrounds the site, and gates are locked after normal working hours. The facility is illustrated in Figure I.B.2 and photographs in Attachment I.B.1 of the permit application dated December 9, 2009 and/or subsequent revisions and in Attachments F and G of this permit. The facility is physically located at 1940 NW 67th Place, Gainesville, Florida.

The following documents were used in the preparation of this permit:

1. *Final Report Offsite Consequence Analysis and Air Modeling* dated January 2006.
2. Part B Permit Application and Renewal Application dated December 9, 2009.
3. *Substantial Modification Demonstration, Perma-Fix of Florida, Inc., EPA ID No. FLD 980 711 071, Permit No. 17680-009* dated December 2009
4. PFF response dated March 10, 2010 to FDEP's first Notice of Deficiencies issued on February 10, 2010.

Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

PART I - GENERAL AND STANDARD CONDITIONS

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are “permit conditions” and are binding and enforceable pursuant to Sections 403.141 and 403.727, F.S. The Permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in Sections 403.087(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the Permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the Permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The Permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the Permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The Permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:
 - a. Have access to and copy any records that must be kept under conditions of the permit;
 - b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
 - c. Sample or monitor any substances or parameters at any time or location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

8. The Permittee shall comply with the following notification and reporting requirements:
- a. If, for any reason, the Permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the Permittee shall immediately provide the Department with the following information:
 - (1) A description of and cause of noncompliance; and
 - (2) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance. The Permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.
 - b. Notification of any noncompliance or emergency response including interim source removal, which may endanger health or the environment, including the release of any hazardous waste that may endanger public drinking water supplies or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be reported verbally to the Department within 24 hours, and a written report shall be provided within five days. The verbal report shall include the name, address, I.D. number, and telephone number of the facility and its owner or operator; the date, time, and type of incident; the name and quantity of materials involved; the extent of any injuries if any; an assessment of actual or potential hazards; and the estimated quantity and disposition of recovered material. The written submission shall contain all the elements of the verbal report and:
 - (1) A description and cause of the noncompliance.
 - (2) If not corrected, the expected time of correction, and the steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.
 - c. The Permittee shall comply with the "Notices" provisions of Rule 62-780.220, F.A.C.
 - (1) prior to performing field activities;
 - (2) when contamination beyond the facility boundary is confirmed by laboratory analysis;
 - (3) when a temporary point of compliance (TPOC) is established beyond the boundary of the source property in conjunction with monitored natural attenuation or active remediation;
 - (4) five year annual update to the status of a TPOC; and
 - (5) warning signs at facilities where there may be a risk of exposure to the public of environmental media contaminated with hazardous waste.
 - d. The Permittee shall give written notice to the Department within 15 days of any planned physical alterations or additions that could affect activities covered by this permit. The notice shall include at a minimum, a summary of the planned change, the reason for the planned change, a discussion of the effect(s) the planned change will have on the ability to investigate contamination at or from the contaminated site, and a discussion of the effect(s) the planned change will have on the known or suspected contamination.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- e. The Permittee shall revise "Part I - General" of the Application for a Hazardous Waste Facility Permit [DEP Form 62-730.900(2)(a)] and submit the revised form to the Department within 30 days of any changes in the Part I information except for item 19 "Existing or pending environmental permits".
- f. Biennial report: A biennial report covering facility activities during the previous calendar year shall be submitted by March 1 of each even numbered year.
- g. Manifests:
 - (1) Unmanifested waste report: The Permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.
 - (2) Manifest discrepancy report: If a significant discrepancy in a manifest is discovered, the Permittee shall attempt to rectify the discrepancy. If not resolved within 15 days after the waste is received, the Permittee shall immediately submit a letter report, including a copy of the manifest, to the Department.
- 9. In accepting this permit, the Permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Section 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.
- 10. The Permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the Permittee does not waive any other rights granted by Florida Statutes or Department rules. A reasonable time for compliance with a new or amended surface water quality standard, other than those standards addressed in Rule 62-302.500, F.A.C., shall include a reasonable time to obtain or be denied a mixing zone for the new or amended standard.
- 11. This permit is transferable only upon written Department approval in accordance with Rules 62-4.120 and 62-730.290(6) F.A.C., as applicable. The Permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department. Before transferring ownership or operation of this facility during the term of this permit, the Permittee must notify the new owner or operator in writing of the requirements of 40 CFR Part 264 and Chapter 62-730, F.A.C.
- 12. This permit or a copy thereof shall be kept at the work site of the permitted activity. In the event that there is no building or reasonable repository for such a copy at the work site, then the permit or a copy thereof shall be kept at an alternate location agreed to by the department.
- 13. Reserved.
- 14. The Permittee shall comply with the following recordkeeping requirements:

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- a. Upon request, the Permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- b. The Permittee shall hold at the facility or other location, as specified in this permit condition, records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit; copies of all reports required by this permit; records of all data used to complete the application for this permit; and all monitoring data required by 40 CFR Part 264 Subparts F and G, and 40 CFR 264.228. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule. Copies of the manifests and operating records will be maintained on site for at least one year. After that, all records may be transferred to an off-site records storage facility where they will remain for at least three years as discussed in Part II A Section A 7 of the permit application dated December 9, 2009 and/or subsequent revisions.
- c. Records of monitoring information shall include all required items in Chapter 62-160, F.A.C. These include at a minimum:
 - (1) The date, exact place, and time of sampling or measurements;
 - (2) The person responsible for performing the sampling or measurements;
 - (3) The dates analyses were performed;
 - (4) The person responsible for performing the analyses;
 - (5) The analytical techniques or methods used; and
 - (6) The results of such analyses.
- d. As a generator of hazardous waste, the Permittee shall retain a copy of all notices, certifications, demonstrations, waste analysis data, and other documentation produced to comply with land disposal restrictions (40 CFR Part 268) for at least three years from the date that the waste which is the subject of such documentation was last sent to an on property or off-property facility for treatment, storage, or disposal, or until remedial activity is completed, whichever date is later. These periods may be extended by request of the Department at any time and are automatically extended during the course of any unresolved enforcement action regarding this facility.
- e. The Permittee shall keep a written operating record, which includes:
 - (1) The results of any waste analysis;
 - (2) Copies of hazardous waste manifests;
 - (3) The results of inspections;

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- (4) The closure plan, postclosure plan, and remedial action (corrective measures) plans as applicable for each contaminated site, along with cost estimates for each plan shall be kept until the certification of closure is accepted by the Department;
- (5) Inspections of emergency and safety equipment;
- (6) Biennial reports;
- (7) Personnel training records (Part II Subpart A - Condition 2);
- (8) The Waste Minimization Program Plan (Part II Subpart A - Condition 8);
- (9) Annual certification of waste minimization (Part II Subpart A - Condition 8);
- (10) The description and quantity of each hazardous waste [received/generated];
- (11) The location of each hazardous waste within the facility and the quantity at location;
- (12) Notices to generators as specified in 40 CFR 264.12(b);
- (13) A log of dates of operations and unusual events;
- (14) A summary report and details of incidents that require implementation of the contingency plan (Part II Subpart A-Condition 6);
- (15) Monitoring and test data for 40 CFR 264 Subparts AA, BB, and CC requirements; and
- (16) Documentation that local officials have refused to enter into preparedness and prevention arrangements with the Permittee, until closure of the facility.

The operating records shall be kept in accordance with condition 14 b above.

15. Within the timeframe requested by the Department, the Permittee shall furnish any information required by law which is needed to determine compliance with the permit. If the Department's request does not include a timeframe, the time of response is 30 days. If the Permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.
16. Except as otherwise specifically provided in this permit, all submittals in response to permit conditions shall be provided as described below.
 - a. One electronic copy shall be sent to the current project manager.
 - b. Hard copies shall be sent to:

Hazardous Waste Supervisor
Department of Environmental Protection
Suite 200B

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

7825 Baymeadows Way
Jacksonville, Florida 32256-7590

- c. Hard copies may be requested by the Hazardous Waste Regulation Section at any time. Upon request, the Permittee shall send hard copies to:

Environmental Administrator
Hazardous Waste Regulation Section M.S. 4560
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

17. All documents submitted pursuant to the conditions of this permit shall be accompanied by a cover letter stating the name and date of the document submitted, the number(s) of the Part(s) and Condition(s) affected, and the permit number and project name of the permit involved.
18. All documents proposing modifications to the approved permit and involving the practice of engineering must be submitted to the Department for review and be signed, sealed, and certified by a Professional Engineer registered in the State of Florida, in accordance with Chapter 471, F.S. and Rule 62-730.220(9), F.A.C. All submittals incorporating interpretation of geological data shall be signed and sealed by a Professional Geologist registered in the State of Florida in accordance with Chapter 492, F.S. and Rule 62-730.220(10), F.A.C.
19. The Department of Environmental Protection's 24-hour emergency telephone number is (850) 413-9911 or (800) 320-0519. During normal business hours, the DEP District Office may be contacted at (904) 807-3300 (Jacksonville).
20. The following conditions apply to permit modification and revocation of this permit:
- a. The Department may modify, revoke, reissue or terminate for cause this permit in accordance with Chapters 62-4 and 62-730, F.A.C. The filing of a request for a permit modification, revocation, reissuance, or termination or the notification of planned changes or anticipated noncompliance on the part of the Permittee does not stay the applicability or enforceability of any permit condition. The Permittee may submit any subsequent modifications to the Department for approval. The application shall meet the fee requirements of Rule 62-730.293, F.A.C. The Permittee shall submit the application for revisions to the address in Condition 16 of this Part. The Permittee shall submit a copy of the cover letter accompanying the revisions and the fee to:

Florida Department of Environmental Protection
Hazardous Waste Regulation Section
Post Office Box 3070
Tallahassee, Florida 32315-3070

- b. The modification fee may also be submitted electronically. However, if the Permittee intends to submit the modification fee electronically, the Permittee shall obtain instructions from the Department on how to submit the renewal fee electronically prior to attempting such submittal and shall follow such instructions in making the electronic fee submittal.

PERMITTEE:
Perma-Fix of Florida, Inc.

Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- c. All requests for permit modifications shall include an evaluation of the applicability of, and Permittee's compliance with, the siting criteria of Section 403.7211, F.S. and Rule 62-730.186, F.A.C.

- 21. Prior to 180 calendar days before the expiration of this permit, the Permittee shall submit a complete application for the renewal of the permit on forms and in a manner prescribed by the Department unless postclosure care and all corrective action have been completed and accepted by the Department. If the Permittee allows this permit to expire prior to Department acceptance of the certification of postclosure and termination of all corrective action, the Permittee must reapply for a permit in accordance with DEP Form 62-730.900(2), F.A.C. The Permittee shall submit the renewal to the address in Condition 16 of this Part. The Permittee shall submit one copy of the cover letter accompanying the renewal and the fee to:

Florida Department of Environmental Protection
Hazardous Waste Regulation Section
Post Office Box 3070
Tallahassee, Florida 32315-3070

- 22. The renewal fee may also be submitted electronically. However, if the Permittee intends to submit the renewal fee electronically, the Permittee shall obtain instructions from the Department on how to submit the renewal fee electronically prior to attempting such submittal and shall follow such instructions in making the electronic fee submittal.
- 23. The Permittee shall comply with those sections of 40 CFR Part 124 specified in Rule 62-730.200(3), F.A.C., 40 CFR Parts 260 through 268, and 40 CFR Part 270 as adopted in Chapter 62-730, F.A.C., until all operations have ceased and the facility has been closed and released from postclosure care requirements and all facility-wide corrective action requirements.
- 24. The Permittee shall comply with the security provisions of 40 CFR 264.14 and the facility security provisions in Part II.A.4 of the permit application dated December 9, 2009 and/or subsequent revisions.
- 25. If this facility is a suspected or confirmed contaminated facility where there may be a risk of exposure to the public, then upon direction from the Department the Permittee must comply with the warning sign requirements of Section 403.7255, F.S., and Rule 62-730.225(4), F.A.C. The Permittee is responsible for supplying, installing and maintaining the warning signs.
- 26. The Permittee shall visually inspect the facility emergency and safety equipment listed in the Contingency Plan Attachment II.A.2 of the permit application dated December 9, 2009 and/or subsequent revisions during permitted activities in accordance with 40 CFR 264.15. The Permittee shall remedy any deterioration or malfunction discovered by an inspection, in accordance with the requirements of 40 CFR 264.15(c). A schedule for the inspection of the facility emergency and safety equipment must be maintained as the operating record of the facility. Changes, additions, or deletions to the schedule must be approved in writing by the Department.
- 27. The Permittee shall comply with the following conditions concerning preparedness and prevention:

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- a. At a minimum, the Permittee shall have the equipment available at the facility which is described in Attachment II.A.2 (Contingency Plan) of the permit application dated December 9, 2009 and/or subsequent revisions.
 - b. The Permittee shall test and maintain the required equipment as necessary to assure its proper operation in time of emergency.
 - c. The Permittee shall maintain immediate access to an internal communications or alarm system.
 - d. The Permittee shall maintain arrangements with State and local authorities as required by 40 CFR 264.37. If State or local officials refuse to enter into preparedness and prevention arrangements with the Permittee, the Permittee must document this refusal in the operating record. At a minimum, the "State and local authorities" for this condition shall include:
 - (1) Gainesville Fire Department.
 - (2) Gainesville Police Department.
 - (3) Local hospital.
 - (4) Your Emergency Response Contractor.
 - e. At a minimum, the Permittee shall maintain aisle space to allow the unobstructed movement of personnel, fire protection, and emergency response equipment to any area of the Facility.
 - f. The Permittee shall perform, at a minimum, an annual review of the Contingency Plan to ensure that it is up to date and contains current information.
28. The conditions in this permit shall take precedence over the permit application documents where there are differences between those documents and the permit conditions.
29. The Permittee may claim that any information required to be submitted by this permit is confidential in accordance with Rule 62-730.100(3), F.A.C.
30. All work plans, reports and schedules and other documents ("submittals") required by this permit are subject to approval by the Department prior to implementation. The Department will review the submittals and respond in writing. Upon written approval by the Department, the Permittee shall implement all work plans, reports and schedules as provided in the approved submittal. If the Department disapproves a submittal, the Department may:
- a. Notify the Permittee in writing of the reason(s) why the submittal does not contain information adequate to support the conclusion, alternative, plan, proposal or recommendation, or why the conclusion, alternative, plan, proposal or recommendation is not supported by the applicable criteria. In this case the Permittee shall submit a revised submittal within 60 days of receipt of the Department's disapproval; or
 - b. Revise the submittal, or approve the submittal with conditions, and notify the Permittee of the revisions or conditions. In the case of work plans, the Department may notify the Permittee of the start date of the schedule within the revised or conditionally approved work plan.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

31. Any dispute resolution will be conducted in accordance with Chapter 120, F.S. (Administrative Procedure Act), Chapter 28-106, F.A.C. and the Department's existing rules and procedures.
32. The following conditions apply to land disposal (placement) of hazardous wastes:
 - a. 40 CFR Part 268 identifies hazardous wastes that are restricted from land disposal and defines those limited circumstances under which an otherwise prohibited waste may continue to be placed on or in a land treatment, storage, or disposal unit. The Permittee shall maintain compliance with the requirements of 40 CFR Part 268. Where the Permittee has applied for an extension, waiver, or variance under 40 CFR Part 268, the Permittee shall comply with all restrictions on land disposal under this Part once the effective date for the waste has been reached pending final written approval of such application.
 - b. A restricted waste identified in 40 CFR Part 268 Subpart C may not be placed in a land disposal unit without further treatment unless the requirements of 40 CFR Part 268 Subparts C and/or D are met.
 - c. The storage of hazardous wastes restricted from land disposal under 40 CFR Part 268 is prohibited unless the requirements of 40 CFR Part 268 Subpart E are met.
33. The Permittee shall implement remedial activities beyond the facility boundary, if there is suspected or confirmed off-property contamination, to protect human health and the environment, unless the Permittee demonstrates to the satisfaction of the Department that, despite the Permittee's best efforts, as determined by the Department, the Permittee was unable to obtain the necessary permission to undertake such actions. The Permittee shall use all reasonable efforts, including but not limited to correspondence, telephone calls, personal contacts, drafting and redrafting agreements, and payment of a fee, to obtain any access to real property necessary for work to be performed in the implementation of this permit. If necessary access cannot be obtained by the Permittee, or if obtained, is revoked by owners or entities controlling access to the properties to which access is necessary, the Permittee shall notify the Department within five business days of such refusal or revocation. The Department may at any time thereafter seek to obtain such access as is necessary to implement the terms of this permit. The Permittee shall reimburse the Department for any damages, costs, or expenses, including expert and attorneys' fees, that the Department is ordered to pay, or that the Department incurs in connection with its efforts to obtain necessary access to said property. The Permittee shall pay these sums to the Department, or arrange a payment schedule with the Department, within 30 days of demand by the Department. The Permittee is not relieved of all responsibility to clean up a release that has migrated beyond the facility boundary where off-property access is denied. On-site measures to address such releases will be determined on a case-by-case basis.
34. The Permittee owns the real property that comprises the Facility. If and when the Permittee intends to transfer parcels to third parties, the Permittee may drop a parcel from the Facility covered by this permit, and the Department will approve the dropping of the parcel so long as the parcel never contained a contaminated site, or so long as any contamination associated with the contaminated site has been addressed to the satisfaction of the Department. The satisfaction of the Department may be conditioned on a sale with certain legal restrictions on the future use and/or remedial activity requirements on the parcel being dropped. Even though a parcel is no longer defined as part of the facility as a result of the permit modification (using the minor modification requirements of

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

Rule 62-730.290(4), FAC), in the unanticipated and improbable event that a previously unknown contaminated site is found on the parcel, and such contamination resulted from activities which occurred prior to the sale, the Permittee will be responsible for any corrective action along with any other persons who may have legal responsibility for the contamination.

35. The Permittee shall maintain compliance with 40 CFR Part 264, Subpart H - Financial Requirements and Rule 62-730.180(6), F.A.C. All submittals relating to financial assurance shall be submitted to:

Financial Assurance M.S. 4560
Hazardous Waste Regulation Section
Department of Environmental Protection
2600 Blair Stone Road
Tallahassee, Florida 32399-2400

36. Financial assurance shall be based on estimates of the costs to close the facility and to implement postclosure care and/or corrective action (including the assessment phase and interim measures) (collectively referred to hereinafter as "remedial activities") for a continuing (rolling) period of 30 years, unless this period is shortened or increased by the Department in a permit renewal or modification. The cost estimates must be based on the cost to the owner or operator of hiring a third party to conduct remedial activities. The Permittee shall include cost estimates with every work plan required by this permit. Cost estimates are subject to review and written approval by the Department. In the event the total cost estimate for all remedial activities increases beyond the amount provided by Permittee, the financial assurance instrument(s) must be increased accordingly within 60 days of the estimate increase, or, for those facilities using a financial test, in the next scheduled submittal. If the estimate increase causes the inability of the facility to provide financial assurance through its currently selected mechanism, alternate financial assurance must be provided within 60 days. If contamination from the facility goes beyond the property boundary, the Permittee shall provide assurances of financial responsibility for completion of corrective action beyond the property boundary.

PART II - OPERATING CONDITIONS

PART II SUBPART A - GENERAL OPERATING CONDITIONS

1. The Permittee shall notify the Department in writing four weeks prior to receipt of hazardous waste from a foreign source. Notice of subsequent shipments of the same waste from the same foreign source is not required.
2. The owner or operator of a facility that receives hazardous waste from an off-site source (except where the owner or operator is also the generator) must inform the generator in writing that he has the appropriate permit(s) for, and will accept, the waste the generator is shipping.
3. Facility personnel must successfully complete the approved training program indicated in Attachment II.A.3 Personnel Training Program of the permit application dated December 9, 2009 and/or subsequent revisions, within six months of employment or assignment to a facility or to a new position at the facility. Verification of this training must be kept with the personnel training records and maintained at the facility. Personnel shall not work unsupervised until training has

PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

been completed. The training must be reviewed by facility personnel at least annually. The Permittee shall maintain an updated list of personnel handling hazardous waste and their respective job titles at the facility.

4. The Permittee shall maintain and operate the facility to minimize the possibility of fire, explosion or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.
5. Permittee shall comply with the manifest requirements of 40 CFR 264.71 and 264.72. The Permittee must document the reconciliation of any manifest discrepancies.
6. The Permittee shall comply with the following conditions concerning the Contingency Plan:
 - a. The Permittee shall immediately carry out the provisions in Attachment II.A. 2 (Contingency Plan) of the permit application of the permit application dated December 9, 2009 and/or subsequent revisions, and follow the emergency procedures described by 40 CFR 264.56, whenever there is a fire, explosion, or release of hazardous waste or hazardous waste constituents which threatens or could threaten human health or the environment. The Permittee shall give proper notification if an emergency situation arises and, within five calendar days, must submit to the Department a written report which includes all information required in Part I Condition 8.(b).
 - b. The Permittee shall comply with the requirements of 40 CFR 264.53.
 - c. Any future amendments to the Contingency Plan in the permit application dated December 9, 2009 and/or subsequent revisions shall require permit modification in accordance with 40 CFR 270.42. An updated electronic copy shall be sent to each state and local authority as described in Specific Condition Part I.27.d.
 - d. The Permittee shall comply with the requirements of 40 CFR 264.55, concerning the emergency coordinator.
7. Sampling and analysis of permitted and new hazardous wastes shall be conducted in accordance with Attachment II.A.4 - Waste Analysis Plan of the permit application dated December 9, 2009 and/or subsequent revisions.
 - a. The Permittee is liable for waste profiles supplied to generators.
 - b. Prior to acceptance of waste codes not listed in Attachment A of this permit, a permit modification is required.
8. The Permittee shall develop and maintain a Waste Minimization Program Plan. The Permittee shall maintain copies of the certification required by this Condition in the facility operating record for a minimum of three years. The Permittee must certify, no less often than annually, that:
 - a. The Permittee has a program in place to reduce the volume and toxicity of hazardous waste generated to the degree determined by the Permittee to be economically practicable; and

PERMITTEE:
Perma-Fix of Florida, Inc.

PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- b. The proposed method of treatment, storage or disposal is the most practicable method available to the Permittee, which minimizes the present and future threat to human health and the environment.
9. With respect to ignitable and reactive wastes, the Permittee shall comply with 40 CFR 264.17, 264.176, and 264.198. With respect to incompatible wastes, the Permittee shall comply with 40 CFR 264.177 and 264.199.

PART II SUBPART B - SPECIFIC OPERATING CONDITIONS

PART II SUBPART B.1-MISCELLANEOUS TREATMENT UNITS

1. The Permittee shall conduct the Perma-Fix I® Process (PF-I) and Perma-Fix® II Process (PF-II) treatment in accordance with specifications and procedures described in Appendix II.B.1 (Perma-Fix I® Process) and Section II.I (Perma-Fix® II Process) of the permit application dated December 9, 2009 and/or subsequent revisions.
2. The Permittee shall not treat in the PF-II process more than 3,000 pounds on any single day. The maximum quantity of hazardous waste treated in any single batch shall not exceed 85 gallons for the existing PF-II process.
3. The Permittee is allowed to treat, in the PF-II reactor vessel, wastes contaminated with the volatile organic hazardous constituents up to the maximum concentrations, listed in Table 1 in the Air Toxic Modeling Report dated August 2005 and Table 1 Proposed Waste Codes in the Substantial Modification Demonstration dated December 2009. The waste codes permitted for treatment are listed in Attachment II.A.5 of the permit application dated December 9, 2009 and/or subsequent revisions and Attachment A of this Permit.
4. The Permittee shall only conduct hazardous debris treatment, as described in Attachment I.D.1 and Appendix A, Part I of the permit application dated December 9, 2009, and/or subsequent revisions, in the hazardous debris vat unit located inside the LSV Processing area. Also, the Permittee shall capture all solids and liquid residuals generated from the debris treatment activities inside the primary containment vat unit and manage them as described in Attachment I.D.1, Appendix A of the permit application dated December 9, 2009 and/or subsequent revisions.
5. The Permittee is allowed to treat only hazardous debris with the waste codes listed in Attachment A of the permit. Also, the extent of treatment shall be limited to achieve compliance with 40 CFR 268.45.
6. The Permittee shall not conduct hazardous debris treatment with any equipment that the facility uses in the LSV Process. Furthermore, the Permittee shall not commingle any non-liquid waste from the hazardous debris unit into the LSV Process.
7. The Permittee shall comply with waste compatibility requirements of 40 CFR 264.17(b).
8. All treatment of the hazardous waste shall be conducted by qualified trained personnel, experienced in handling such material. [40 CFR 264.16]

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

9. The Permittee shall verify and record in the operating records, that the Air Emission Control System (AECS) is engaged and operating properly prior to performing any hazardous waste or hazardous debris treatment activities, including opening, loading or unloading waste containers. Additionally, the Permittee shall verify and record in the operating records that the TOB is under negative pressure prior to performing PF-II treatment. The AECS shall remain in operation and the primary chamber temperature be maintained at 1,300°F to 1,500°F while treatment operations are conducted.
10. The Permittee shall remove treated waste and other residues from the treatment unit(s) and ancillary equipment, and decontaminate the equipment, in accordance with the decontamination procedures described in Section II.I "Process Residuals Management" of the permit application dated December 9, 2009, and/or subsequent revisions for the existing PF-II process.
11. The Permittee shall not store more than twenty (20) drums 55 gallons or less in size in the TOB processing area at any time, as listed in Section II.I, Attachment II.I.4 of the permit application dated December 9, 2009, and/or subsequent revisions. The Permittee is authorized to store wastes in totes, B-12 containers, or B-25 containers in the TOB processing area in a single stack as long as these containers do not significantly affect the capacity of secondary containment in the TOB processing area (e.g., containers provided with legs/supports). The Permittee shall remove all treated waste and treatment residues from the treatment areas of the TOB and hazardous debris unit areas within twenty-four (24) hours of completion of the treatment event. Furthermore, staging of waste containers for treatment in the treatment areas of the TOB or hazardous debris unit area will be limited to twenty-four (24) hours prior to beginning treatment. The Permittee shall not store any waste in the treatment unit areas for a period greater than forty-eight (48) hours, including treatment time.
12. The Permittee shall maintain a written record of the date, time, and number of all waste containers being transferred in and out of the TOB treatment area or hazardous debris unit treatment area and shall record this information in the facility operating record.
13. The Permittee shall provide adequate fire protection to ensure confinement and control of any fire resulting from operation, as specified in the Contingency Plan, Attachment II.A.2, Section 4.5.4.1 of the permit application dated December 9, 2009, and/or subsequent revisions.
14. The Permittee shall maintain an operational record describing treatment activities for PF-I, PF-II and Debris treatment processes. The operational record shall be kept as part of the operating records for a period of 3 years and shall include the following information:
 - a. Description and quantity of each hazardous waste received and treated at the unit(s) and dates of treatment;
 - b. Concentration of volatile organic hazardous constituents for each waste stream placed in the PF-II reactor vessel, pursuant to the Specific Condition 3 of this Part. The Permittee may use generator knowledge (e.g., land ban notifications) or analytical data for the purpose of this record keeping requirement;
 - c. List of personnel present during each treatment operation on a given day;

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- d. Operating conditions of the Air Emission Control System including flow rate and temperature recorded once per day during treatment operation after the proposed PF-II process is implemented. Until then, the RTO temperature will be recorded on a daily basis on each day treatment is performed; and
 - e. Details of any problems discovered during inspections conducted pursuant the Specific Conditions 15 and 16 of this Part and details of remedial actions taken.
15. The Permittee shall conduct internal inspections of the PF-II reactor vessel and accumulator tank, as specified in Section II.I, Attachment II.I.2 of the permit application dated December 9, 2009, and/or subsequent revisions, for the existing process. The Permittee shall also inspect the thermal oxidizer and calibrate the temperature in the primary chamber at least once a year. The Permittee shall conduct an internal inspection of the proposed PF-II reactor vessel at least once a year unless the reactor vessel is out of service. In that case, the reactor vessel shall be inspected prior to being returned to service.
16. The Permittee shall conduct inspections of the miscellaneous unit(s) on each day treatment is conducted in accordance with Section II.I, Attachment II.I.2 of the permit application dated December 9, 2009, and/or subsequent revisions for the existing PF-II process. Inspection of the proposed PF-II process will be conducted on each day treatment is performed, in accordance with Section II.I, Attachment II.I.7 of the permit application dated December 9, 2009 and/or subsequent revisions. If a significant deterioration of the concrete pad, joint sealant material or protective coating (due to accidental spills) is noted in these inspections, the Permittee shall re-evaluate the need for a more resistant protective coating or seal material. All the inspection reports including corrective actions must be recorded and kept as part of the operating records [40 CFR 264.15].
17. The Permittee shall implement appropriate remedial actions for the problems discovered during the inspections conducted pursuant to the Specific Condition 15 and 16 of this Part. For problems that cannot be remediated within forty-eight (48) hours, the Permittee shall notify the Department within three (3) working days and follow up with a written report within fourteen (14) days of discovering such problems. The report must include descriptions of the remedial actions taken. The Permittee shall cease operation of the miscellaneous treatment unit until completion of the necessary repairs.
18. The Permittee shall provide a written report to the Department within thirty (30) days of removing any component of the PF-II treatment unit or its ancillary equipment from service and shall include a description of the decontamination procedures. The Permittee shall follow the closure plan, Section II.K of the permit application dated December 9, 2009, and/or subsequent revisions, for the decontamination procedures.

PART II SUBPART B.2-CONTAINER STORAGE AREAS/UNITS

1. The Permittee is allowed to store the wastes listed in Attachment A of this permit only in the Processing and Storage Building (PSB), Treatment and Operations Building (TOB), and in the Liquid Scintillation Vial (LSV) Processing and Waste Storage Warehouse. Containers must conform to D.O.T. requirements. If a container holding hazardous waste is not in good condition, or begins to leak, the waste shall be transferred to another container that is in good condition [40 CFR 264.171] or it will be overpacked. Containers shall be kept closed, except when adding or

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

removing waste and be handled in a manner that will not allow the containers to rupture or leak [40 CFR 264.173].

2. The Permittee shall not store any hazardous waste, which is not listed in Specific Condition 1 of this Part. Non-hazardous waste, or raw materials/products are authorized to be stored in the permitted container storage areas as long as the total storage does not exceed the permitted capacity.
3. The Permittee shall not store, in a single container, chemical constituents above the quantities listed in under the third column "Maximum Container Quantity (lbs)" of Attachment B. The attachment was developed from Tables 5 and 8 from the "Final Report Offsite Consequence Analysis and Air Modeling" dated January 2006 and from Tables 5 and 8 from the "Substantial Modification Demonstration" revised March 2010. If a constituent was present in both tables the more restrictive data, (i.e. the small number in the "amount released" column) was listed in Attachment B.
4. The Permittee shall use only those containers made of or lined with materials which will not react with and are otherwise compatible with the waste to be stored in them [40 CFR 264.172].
5. The Permittee shall conduct visual daily inspections of the permitted container storage area for each working day, to detect leakage in the hazardous waste areas or their associated loading/unloading zones [40 CFR 264.174]. Inspections shall be documented on a weekly basis, at a minimum in accordance with 40 CFR 264.174. If, in spite of the inspections, a significant deterioration of the concrete pad or joint sealant material is noted, the Permittee shall re-evaluate the need for a protective coating/more resistant seal material.
6. The Permittee shall remove spilled or leaked waste and accumulated precipitation from the secondary containment areas in as timely a manner as is necessary to prevent overflow of the secondary containment, per the requirements of 40 CFR 264.175.
7. The Permittee shall comply with the waste compatibility requirements of 40 CFR 264.177 as indicated in Section II.B, Subsections B2 & 3 of the permit application dated December 9, 2009, and/or subsequent revisions.
8. The Permittee shall comply with the following conditions concerning operation of the PSB, TOB, and LSV container storage areas:
 - a. The Permittee shall maintain and operate the facility as required by 40 CFR 264.175 and in accordance with Part II, Section B of the permit application dated December 9, 2009, and/or subsequent revisions.
 - b. The Permittee shall store a maximum of 72,105 gallons of waste in containers and in sizes up to 718 gallons (B-25 box) or less, in the PSB storage area as shown in Figure I.D.4 of the permit application dated December 9, 2009, and/or subsequent revisions. The containers shall meet D.O.T. specifications.
 - c. The Permittee shall store a maximum of 35,200 gallons of waste in containers in sizes up to 718 gallons (B-25 box) or less, in the TOB storage area as shown in Figure I.D.1 of the permit application dated December 9, 2009, and/or subsequent revisions. The containers shall meet D.O.T. specifications.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- d. The Permittee shall store a maximum of 54,340 gallons in containers in sizes up to 718 gallons (B-25 box) or less, in the LSV Processing and Waste Storage Warehouse, as shown in Figure I.D.7 of the permit application. The containers shall meet D.O.T. specifications.
- e. The Permittee must place the drums on standard pallets when they are single stacked. The Permittee must use pallets and banding when drums are double stacked, except for the storage inside the chemotherapy and pharmaceutical wastes in the Cage in the PSB.
- f. For storage of drums larger than fifty-five gallons, the Permittee shall not place more than three (3) drums per pallet and shall not stack them more than two high.
9. The Permittee shall keep all containers and associated equipment used for the fuel blending and phase separation activities inside the secondary containment area of the PSB.
10. All fuel blending and phase separation activities shall be conducted by qualified personnel experienced in handling such material. [40 CFR 264.16]
11. The Permittee shall maintain a written record for tracking the date and quantity of all waste processed in the fuel blending and phase separation activities and include quantity of waste solvent transferred out of the LSV 3000-gallon storage tank for use in the fuel blending operation. This information shall be entered in the facility operating record.

PART II SUBPART B.3-TANKS

1. The Permittee is allowed to operate one (1) Above Ground Tank ("AGT") in accordance with the design plans and specifications in Section II.C of the revised permit application dated December 9, 2009, and/or subsequent revisions.
2. The Permittee is authorized to store only radioactive mixed waste in the AGT that is generated from the Liquid Scintillation Vials (LSV) process wastes as described in Attachment I.D.1 of permit application dated December 9, 2009, and/or subsequent revisions.
3. The Permittee shall store a maximum of 3,000 gallons of waste in the tank.
4. The Permittee shall notify the Department when the volume of waste stored in the tank reaches ninety-five (95) percent capacity of the tank, i.e., 2,850 gallons. An electronic notification is acceptable.
5. The Permittee shall not place ignitable or reactive waste in the tank system unless the waste is stored in such a way that it is protected from any material or conditions that may cause the waste to ignite or react. [40 CFR 264.198(a)]
6. The Permittee shall comply with the protective distance requirements for the tank placement as set forth in The Florida Fire Prevention Code (2007) and any subsequent revisions [40 CFR 264.198(b)].

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

7. The Permittee shall handle incompatible wastes in accordance with the requirements of 40 CFR 264.199, by not introducing hazardous waste into the tank system, which previously held incompatible waste or material, until the tank system is adequately decontaminated.
8. For new tank components which may be required by the repair options of 40 CFR 264.196(f), the Permittee must submit a written assessment, reviewed and certified by an independent professional engineer registered in the State of Florida, which attests to the component's structural integrity. This assessment shall meet the requirements of 40 CFR 264.192. As required in 40 CFR 264.192(b), an independent qualified inspector or independent professional engineer registered in the State of Florida must inspect the installation.
9. The Permittee shall prevent the release of hazardous waste or hazardous constituents to the environment. The secondary containment system shall be maintained according to the Section II.C of the revised permit application dated December 9, 2009, and/or subsequent revisions and shall comply with the requirements of 40 CFR 264.193, including the requirements set forth below:
 - a. All new components shall have secondary containment as required by parts (b) and (c) of this condition prior to being placed into service.
 - b. Pursuant to 40 CFR 264.193, the secondary containment system shall be:
 - (1) Maintained to prevent any migration of wastes or accumulated liquid to the soil, groundwater or surface waters;
 - (2) Capable of detecting and collecting releases and run-on until the collected material is removed;
 - (3) Lined with materials compatible with the waste to be stored and have sufficient structural strength to sustain the stresses induced by a failure of the primary containment system as well as other stresses, which may be induced by the environment;
 - (4) Placed on a foundation or base capable of providing support to the secondary containment system;
 - (5) Provided with a leak detection system designed and operated to detect failure of either the primary or secondary containment structures or the presence of any release within 24 hours;
 - (6) Sloped or otherwise designed and operated to drain or remove liquids resulting from leaks, spills, or precipitation; and
 - (7) Designed and operated, to contain 100% of the capacity of the largest tank within its boundary and also contain the precipitation due to a 25-year, 24- hour rainfall event, if run-on control is not provided.
 - c. Ancillary equipment shall be provided with secondary containment, except as provided for in 40 CFR 264.193(f).

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

10. Pursuant to the general operating requirements of 40 CFR 264.194, the Permittee shall:
 - a. Not place hazardous wastes in the tank system if the possibility exists that this may cause the tank system to fail;
 - b. Use appropriate controls and practices to prevent spills and overflows;
 - c. Follow the operating procedures described in Attachment I.D.1 and Section II.C of the permit application dated December 9, 2009 and/or subsequent revisions; and
 - d. Comply with the requirements of 40 CFR 264.196 if a leak or spill occurs from the storage tank system.
11. The Permittee shall inspect the tank system in accordance with Section II.C Paragraph C5 and Appendix E of the permit application dated December 9, 2009, and/or subsequent revisions, as required by 40 CFR 264.195.
12. The Permittee shall follow the procedures outlined in Section II.C, Paragraphs C9 and C11 of the permit application dated December 9, 2009, and/or subsequent revisions, and satisfy the requirements of 40 CFR 264.196 when a tank system or secondary containment system produces a leak or spill, or is determined to be unfit for use. As required by 40 CFR 264.196, these requirements shall include following items:
 - a. Cessation of use; prevention of flow or addition of waste;
 - b. Removal of waste from tank system or secondary containment system;
 - c. Containment of visible releases to the environment;
 - d. Notifications, reports;
 - e. Provision of secondary containment, repair or closure; and
 - f. Certification of major repairs.
13. The Permittee shall decontaminate any ancillary equipment including pumps, pipes and valves, within thirty (30) days of removing it from service or if the Permittee fails to repair the ancillary equipment within that time. The decontamination shall be in accordance with the Section II.K, Paragraph K7.1.1 and K.7.1.3 of the closure plan, of the permit application dated December 9, 2009, and/or subsequent revisions, and entered into the facility operating record.
14. The facility shall provide a written report to the Department within forty-five (45) days of removing the AGT unit or ancillary equipment from service and shall include a description of the decontamination procedures.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

PART II SUBPART B.4-AIR EMISSIONS STANDARDS

1. The Permittee shall inspect, maintain and operate all the facility and equipment including tanks, pumps, compressors, pressure relief devices, flanges and valves in accordance with Section R and S of Part II, of the permit application dated December 9, 2009, and/or subsequent revisions, in accordance with 40 CFR 264 - Subpart AA and BB requirements.
2. The Permittee shall operate the facility in accordance with 40 CFR 264 – Subpart CC requirements.
3. The Permittee shall keep, as part of its operating records, results of inspections, monitoring reports, repairs, and other documents required by 40 CFR 264 Subparts AA, BB, and CC for a minimum of three years.
4. The Permittee shall submit a report of noncompliance, if applicable, with the exemption provisions of 40 CFR 264, Subpart CC outlined at 40 CFR 264.1082(c)(1) or (c)(2) within fifteen (15) calendar days of becoming aware of such noncompliance [40 CFR 264.1090(a)].

PART II SUBPART B.5-CONSTRUCTION REQUIREMENTS

1. The Permittee is authorized to construct/replace the PF-II treatment process as described in Section II.I, Attachment II.I.7 of the permit application dated December 9, 2009. The Permittee will initiate partial closure activities as provided for under the Closure Plan and Section K of the permit application for the closure of the existing PF-II treatment process.
2. Within thirty (30) days of completion of construction of any new storage or treatment unit, the Permittee shall submit to the Department by certified mail or hand delivery, a certification signed by both the Permittee and an independent professional engineer registered in the State of Florida, stating the construction has been completed in accordance with the design parameters specified in the permit application dated December 9, 2009 and/or subsequent revisions. The Certification shall include as-built drawings and a report describing any changes made during construction, with the seal and signature of a professional engineer registered in the State of Florida.
3. The Permittee may begin to operate constructed storage and/or treatment unit(s) twenty (20) days after submitting the as-built certification, required pursuant Specific Condition 2 of this Part, unless the Department notifies the Permittee not to begin operation.

PART II SUBPART C - CLOSURE CONDITIONS

1. The Permittee shall close the any storage or treatment unit in a manner that minimizes or eliminates, to the extent necessary to protect human health and the environment, postclosure escape of hazardous waste, hazardous waste constituents, hazardous waste decomposition products, contaminated leachate or run-off, to the groundwater, surface waters, or to the atmosphere.
2. The Permittee shall have a written closure plan as required by 40 CFR 264.112(a). The closure plan and all revisions to the plan must be kept at the facility until closure is completed, certified in accordance with 40 CFR 264.115, and accepted by the Department.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

3. The Permittee shall modify/revise the approved Closure Plan per the requirements of 40 CFR 264.112(c) and Rule 62-730.290, F.A.C. by submitting a written request to the Department to amend the approved closure plan.
4. The Permittee must complete physical closure activities in accordance with the Closure Schedule in Section II.K of the permit application dated December 9, 2009. Any changes in the time allowed for closure activities after approval shall require prior written Department approval.
5. The Permittee shall notify the Department 45 days prior to the date on which he expects to begin partial or final closure of a unit(s).
6. At least 30 calendar days prior to initiating closure activities, the Permittee shall prepare and submit a Closure Activities Report with "schedule date" and "completed" columns to document the progress of closure. Upon Department approval, the Closure Activities Report shall be maintained and updated by the Permittee throughout the closure period, with copies submitted monthly to the Department. Each report must be submitted to the Department by the tenth (10th) day of each month for the preceding month until the acceptance of physical closure by the Department. The schedule for submittal can be changed with written Department approval. These reports can be submitted electronically. Any deviation from schedule or described tasks shall be fully documented on the checklist.
7. Within 90 days after receiving the final volume of hazardous waste, or upon notification by the Department that closure of a unit is required, the owner or operator must treat or remove from the unit all hazardous waste. The Permittee shall complete closure activities within 180 days after receiving the final volume of hazardous waste. Any changes in the time allowed for closure of the units after approval shall require prior written Departmental approval.
8. The Permittee shall properly decontaminate or dispose of all equipment, structures, and residues used during or resulting from the closure activities.
9. The Permittee shall manage all hazardous wastes, residues, sludges, spilled or leaked waste, or contaminated liquids and soils removed during closure of the unit(s) in accordance with the applicable provisions of 40 CFR Parts 260 through 268, including the manifest requirements. A copy of each manifest required as a result of closure activities shall be submitted to the Department with the Closure Certification.
10. The Permittee shall provide opportunities for site inspections by the Department by informing the Department at least seven calendar days in advance of any physical closure activity (e.g., soil sampling, soil removal, etc.).
11. Within 60 calendar days of the completion of closure, the Permittee shall submit to the Department, by certified mail or hand delivery, a Closure Certification report signed by the Permittee and an independent Professional Engineer registered in the State of Florida, stating that the unit has been closed in compliance with the Closure Plan and the conditions of this permit. The Closure Certification must be based on the Professional Engineer's own observation and knowledge of the closure activities. The Closure Certification must include, but not be limited to, the following:
 - a. Sampling data to verify clean closure;

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

- b. Decontamination data;
 - c. Copies of manifests or other appropriate shipping documents for removal of all hazardous wastes and all contaminated residues;
 - d. Groundwater monitoring data summary pertaining to closure activities;
 - e. A description of the summary of final closure activities; and
 - f. A final inspection check-off sheet.
12. The Permittee shall notify the Department within seven calendar days of any determination that actions undertaken as part of closure or associated monitoring programs no longer satisfy the requirements set forth in this permit. If the Department determines that a modification of the permit is required, the Permittee shall, within 60 calendar days, submit an application for a permit modification in accordance with Rule 62-730.290.
13. Within 30 days of determining that all contaminated soil cannot be practically removed or decontaminated, the Permittee shall notify the Department of such determination. Within 90 days of the determination the Permittee shall submit an application for permit modification to close the facility as a landfill and perform postclosure care as required by 40 CFR 264.310.

PART III - POSTCLOSURE CONDITIONS

Not applicable at this time.

PART III SUBPART A - GENERAL POSTCLOSURE CONDITIONS

Not applicable at this time.

PART III SUBPART B - SPECIFIC POSTCLOSURE CONDITIONS

Not applicable at this time.

PART IV - ENVIRONMENTAL MONITORING CONDITIONS

Not applicable at this time.

PART IV SUBPART A - GENERAL GROUNDWATER MONITORING REQUIREMENTS

Not applicable at this time.

PART IV SUBPART B - SPECIFIC MONITORING CONDITIONS

Not applicable at this time.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

**PART IV SUBPART C - SPECIFIC GROUNDWATER MONITORING REQUIREMENTS FOR
REGULATED UNITS**

Not applicable at this time.

PART IV SUBPART D - GROUNDWATER CLEANUP TARGET LEVELS

Not applicable at this time.

PART V - CORRECTIVE (REMEDIAL) ACTION CONDITIONS

1. The Conditions of this Part apply to:
 - a. The SWMUs and AOCs identified in Appendix A;
 - b. Any additional SWMUs or AOCs discovered during the course of groundwater monitoring, field investigations, environmental audits, or other means; as used in this Part of the permit, the terms “discover”, “discovery”, or “discovered” refer to the date on which the Permittee either:
 - (1) visually observes evidence of a new SWMU or AOC;
 - (2) visually observes evidence of a previously unidentified release of contaminant(s) to the environment; or
 - (3) receives information from a credible source of the presence of a new release of contaminant(s) to the environment; and
 - c. Contamination that has migrated beyond the facility boundary, if applicable.
2. Within 15 calendar days of discovery, the Permittee shall notify the Department in writing of any newly discovered release(s) of contaminant(s) to the environment; any suspected new AOC(s); and any additional SWMU(s) discovered during the course of groundwater monitoring, field investigations, environmental audits, or other means. The notification shall include, at a minimum, the location of the release, AOC or SWMU (hereinafter referred to collectively as “site”), and all relevant information (e.g., location of site(s) on a topographic map of appropriate scale; general dimensions of affected area; media affected; hazardous constituents released; and magnitude of release). The Department may conduct, or require that the Permittee conduct, confirmatory sampling in order to determine whether contamination is present. The Department will notify the Permittee in writing of the final determination as to the status of the newly discovered or suspected site.
3. Upon notification by the Department, the Permittee shall prepare and submit a Confirmatory Sampling (CS) Work Plan for known, suspected, or newly discovered sites. Unless the notification letter specifically establishes a different time frame for work plan submittal, the Work Plan shall be submitted within 60 calendar days of notification by the Department that a CS Work Plan is required. The CS Work Plan shall include schedules for implementation and completion of specific actions necessary to determine whether or not contamination has occurred in any potentially affected media. In order to partly or wholly satisfy the CS requirement, previously existing data may be submitted with the work plan for the Department’s consideration.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

4. In accordance with the schedule in the approved CS Work Plan, or no later than 60 calendar days after Department written approval of a CS Work Plan if no schedule is included in the Work Plan, the Permittee shall submit a Confirmatory Sampling (CS) Report identifying those sites that are contaminated and those sites that are not contaminated. The CS Report shall include an analysis of the analytical data to support all determinations. Based on the results of the CS Report, the Department will determine the need for further investigation at sites covered in the CS Report and notify the Permittee in writing.
5. De Minimis discharge is a release of contaminant(s) that is removed from the soil, sediment, surface water, and groundwater to cleanup target levels or background concentrations within 30 days of discovery of the release. If the Permittee intends to treat a discharge under the De Minimis discharge provision of 62-780.550 FAC, the Permittee must meet the notification requirements of Condition 2 of this Part, notifying the Department that a De Minimis action is underway. A De Minimis Remediation Report must be submitted to the Department within 90 days of discovery of the release. The report must include a description of all actions taken in response to the discharge and the information required by the Interim Source Removal Report pursuant to 62-780.500(7)(a) F.A.C.
6. Upon notification by the Department, the Permittee shall commence site rehabilitation in accordance with Rule 62-730.225 and Chapter 62-780, F.A.C., for all SWMUs and/or AOCs ("contaminated sites") identified in the notification. Unless the notification letter specifically establishes a different time frame to commence or complete site assessment, the Permittee shall commence and complete site assessment in the manner and within the time limits set forth in Rule 62-780.600, F.A.C.
7. Upon notification by the Department, the Permittee shall submit to the Department an Interim Measures (IM) Work Plan for any release, SWMUs or AOCs that the Department determines necessary to minimize or prevent further migration of contaminants or to limit human or environmental exposure to contaminants. The IM Work Plan shall be designed to mitigate any current or potential threat(s) to human health or the environment and to be consistent with long-term corrective actions at the facility. The IM Work Plan shall include the IM objectives, procedures for implementation, a schedule of activities, and associated designs, plans, and specifications.
8. If the Department or the Permittee at any time determines that any approved work plan no longer satisfies the requirements of 40 CFR 264.101 or this permit for prior or continuing releases of contaminant(s) to the environment, the Permittee shall submit an amended work plan to the Department within 60 calendar days of such determination.

PART VI - REMEDY SELECTION AND IMPLEMENTATION

PART VI SUBPART A - GENERAL CONDITIONS

1. Within 90 calendar days of notification by the Department the Permittee shall submit a Remedial Action Plan developed in accordance with Chapters 62-780 and 62-730 F.A.C. Remedial Action Plans may be performance based, submitting remediation options to be implemented based on changing conditions at the site.

PERMITTEE:
Perma-Fix of Florida, Inc.
1940 NW 67th Street
Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
PERMIT/CERTIFICATION NUMBER: 17680-010-HC
EXPIRATION DATE: June 8, 2015

2. Within 30 days of Department written approval of the remedial alternative(s) selected, the Permittee shall publish notice of a proposed permit modification in accordance with Rule 62-730.292(3)(c), F.A.C. This modification will serve to incorporate a final remedy into this permit. Final approval of remedial action which is achieved through interim measures shall be in accordance with this condition.
3. The Remedial Action Plan shall include a provision for the Permittee to submit periodic Remedial Action Status Reports in accordance with Rule 62-780.700(13). The intent to implement a different approved remedy in a performance based Remedial Action Plan can be provided in the Remedial Action Status Report. Proposals to modify a previously approved remedy in a performance based Remedial Action Plan can be provided in the Remedial Action Status Report and implemented with written Department approval.
4. When site rehabilitation (remedial action) is complete, the Permittee shall submit to the Department a Site Rehabilitation Completion Report in accordance with Chapter 62-780, F.A.C. Site Rehabilitation Completion Reports can be part of a combined document with the Remedial Action Status Report.
5. For site rehabilitation involving the cleanup of groundwater contaminated by a release from a designated regulated unit, the Permittee must demonstrate that the concentration of constituents of concern remain below cleanup goals for three consecutive years after active remediation has ceased as per 40 CFR 264.100.(f).
6. When appropriate, the Department will approve completion of site rehabilitation by inclusion in a permit renewal, permit modification, or separate Site Rehabilitation Completion Order.

PART VI SUBPART B - SELECTED REMEDIES

Not applicable at this time.

APPENDIX A SUMMARY OF FACILITY SITES (SOLID WASTE MANAGEMENT UNITS AND AREAS OF CONCERN)

A.1. List of solid waste management units (SWMUs) and areas of concern (AOCs) requiring a RCRA Facility Investigation (RFI):				
SWMU/AOC No/Letter	SWMU/AOC Name	Unit Comment	Dates of Operation	Potentially Affected Media
There are no units identified at this time as requiring a RCRA Facility Investigation.				
A.2. List of solid waste management units (SWMUs) and areas of concern (AOCs) requiring no further action at this time:				
SWMU/AOC No/Letter	SWMU/AOC Name	Unit Comment and Basis for NFA	Dates of Operation	
SWMU 1 **	North Unloading Area			
SWMU 2 **	South Unloading Area			
SWMU 3	Temporary Holding Area			
SWMU 4 *	Processing and Storage Building (PSB)			
SWMU 5 **	Incoming Bulk Waste Transfer Station			
SWMU 6 *	3,000-Gallon Waste Liquids Tank			
SWMU 7	Tanker/Liquids Loading Station Within PSB			
SWMU 8	Outdoor Staging Area			
SWMU 9	Indoor Staging Area			
<p>* Permitted Unit</p> <p>** Unit identified in RFA dated February 22, 1990, but determined to be no longer in use after Supplemental VSI conducted September 15, 2000.</p>				

PERMITTEE:

EXPIRATION DATE: June 8, 2015

A.2. List of solid waste management units (SWMUs) and areas of concern (AOCs) requiring no further action at this time:			
SWMU/AOC No/Letter	SWMU/AOC Name	Unit Comment and Basis for NFA	Dates of Operation
SWMU 9a	Roller Conveyors in LSV Processing Area		
SWMU 9b **	Lift in LSV Processing Area		
SWMU 9c **	In-Feed Hopper in LSV Processing Area		
SWMU 9d **	Shaker Table in LSV Processing Area		
SWMU 9e **	Crusher/Shredder in LSV Processing Area		
SWMU 9f **	Rinse Basket Trough in LSV Processing Area		
SWMU 9g **	Three Chamber Rinse in LSV Processing Area		
SWMU 9h **	Drain Table in LSV Processing Area		
SWMU 9i	LSF Holding Tanks in LSV Processing Area		
SWMU 9k	Grinder Crusher in LSV Processing Area		
SWMU 9m	Fines Removal System (FRS) in LSV Processing Area		
SWMU 10	Processing Area Ventilation System – HEPA Filter		
SWMU 11	Carbon Adsorption System		
<p>* Permitted Unit</p> <p>** Unit Identified in RFA dated February 22, 1990, but determined to be no longer in use after Supplemental VSI conducted September 15, 2000.</p>

1,3-Dichloropropene	U084	125
1,2,3,4-Diepoxybutane; Diepoxybutane; 2,2-Bioxirane	U085	19
Diethyl phthalate	U088	6,636
Dimethylamine	U092	1,900
Cumene hydroperoxide	U096	6,122
Dimethylcarbamoyl chloride	U097	95
1,1-Dimethylhydrazine	U098	40.7
1,2-Dimethylhydrazine	U099	40.8
1,2-Benzenedicarboxylic acid, dimethyl ester; Dimethyl phthalate	U102	138
Dimethyl sulfate	U103	19
Di-n-octyl phthalate	U107	2,218
Ethyl acrylate	U113	1,970

PERMITTEE:
 Perma-Fix of Florida, Inc.
 1940 NW 67th Street
 Gainesville, Florida 32653

I.D. NUMBER: FLD 980 711 071
 PERMIT/CERTIFICATION NUMBER: 17680-010-HC
 EXPIRATION DATE: June 8, 2015

Attachment B (cont)

Constituent	Waste Code	Maximum Container Quantity (lbs)
Ethylene oxide	U115	555
Ethyl methacrylate	U118	815
Formic acid	U123	64
Furfural	U125	391
Glycidylaldehyde	U126	8
Hydrazine	U133	32.2
Hydrogen fluoride	U134	108.8
Hydrogen sulfide	U135	104.5
Methane, iodo-; Methyl iodide	U138	5,100
Isosafrole	U141	6,696
Methacrylonitrile; Methylacrylonitrile	U152	280
Methyl Mercaptan; Thiomethanol; Methanethiol	U153	825
Methyl Chlorocarbonate; Methyl chloroformate	U156	5
Methyl methacrylate	U162	6,300
Paraldehyde	U182	710
Pentachloroethane	U184	8,900
1,3-Pentadiene	U186	2,000
2-Picoline	U191	5,638
n-Propylamine	U194	4,287
Toluene-2,4-di-isocyanate	U223	1.55
Toluene-2,6-di-isocyanate	U223	1.55
Bromoform (tribromomethane)	U225	75.1
Triethylamine	U404	65

PERMITTEE:
Perma-Fix of Florida, Inc.

Attachment B (cont)

Constituent	Waste Code	Maximum Container Quantity (lbs)
O-Chlorophenol (2-Chlorophenol)	K001	10,000
Ethyl Benzene	K048	10,000
Carbon Disulfide (Carbon bisulfide)	K049	7,000
Acetone	K086	3,600
Butyl Benzyl Phthalate	K086	2,750
Cyclohexanone	K086	3,175
Ethyl Acetate	K086	4,300
Methanol	K086	4,861
Methyl Ethyl Ketone (2-butanone, ethyl methyl ketone)	K086	3,300
Methyl Isobutyl Ketone (Hexone)	K086	3,100
Methylene Chloride	K086	10,000
N-Butyl Alcohol	K086	3,125
Nitrobenzene	K086	10,000
O-Dichlorobenzene (1,2-Dichlorobenzene)	K086	10,000
1,1,1-Trichloroethane (Methyl Chloroform)	K086	10,000
Trichloroethylene	K086	10,000
Acetonitrile	K156	1,475
Aniline	K156	10,000
Chlorobenzene (Benzene Chloride)	K156	4,000
Chloroform	K156	10,000
Pyridine	K156	3,375
Carbon Tetrachloride	K157	10,000
Ethyl Benzene	F037	2,750
This attachment was generated from Tables 5 and 8 from the <i>Final Report Offsite Consequence Analysis and Air Modeling</i> dated January 2006 and <i>Substantial Modification Demonstration</i> dated December 2009. If a constituent was present in both tables the more restrictive data (<i>i.e.</i> , the smaller number in the "amount released" column) was listed in this table.
