I am sending a copy of the e-mail letter that Jeff Kirk sent to me in October re: Extending the variance. I requested that he send an official copy and we received it on December 3rd. Jim Byer and I are working on a response with Augusta and believe that a conference call with the above is necessary to clear some issues. Important, this is a time-clock issue. How about this Thursday, 2:30PM eastern time. or..Friday at 2:30PM eastern. We need you folks to get the call in number. Hit thru the ball.
