Subject: manifests		
- Bill of Lading / work order - only if its CESQG waste customer certifies generator status - signed document - Generators obligated to let HCC know when generator status changes. - ship papers to be scanned after they are sent off site - closure cert sent to property owner yesterday April 27th was last day - who should she send closure to? - BOL only has the next stopping point on it, not TSDF. Atlanta will print new BOL w/ Atlanta as "shipper" to go to TSDF - don't accept some wastes, like reactives, subcontract these to Veolia
