Ms. Winston,

In the order of requested items per inspection of February 22, 2011:

1. General Facility inspections: We stamp the book each Friday, and therefore I have included all 52 Friday ledger pages. These are grouped into 47 pages in one packet, then, the remaining five are heading five packets, to satisfy the items requested in item #3 below.
2. The Emergency Contact Phone Numbers page of the Contingency Plan was improved and proofed with the aid of FDEP and is being mailed out with a change page to each organization holding a copy of the plan (Policy, Fire, medical center). I cannot include proof as the green post cards are not yet back.
3. Five manifests were pulled from the Friday ledger pages. These packets include the original driver's ticket followed by all of the manifests accumulated into the truck during that day's run to several service station clients. The number on the driver's ticket is typically larger than the sum of all of the manifests as manifests are estimates and the driver's ticket is derived from measuring the truck tank using a tape and conversion table. The packet continues on with ledger pages for the shipment out of the facility to Miami. In summary, the first ledger page shows the entry to the facility and the following ledger pages show the exit.

Please contact me if there are any questions, at (954) 763-3390 ext. 124.
