Jacksonville, FL 32206

Gentlemen:

FLD 032 383 945

The Florida Department of Environmental Regulation is working under contract with the U.S. Environmental Protection Agency to implement the hazardous waste management program under the Resource Conservation and Recovery Act (PL94-580), and the State requirements of Part IV, Chapter 403, Florida Statutes. Our records indicate your operation engages in hazardous waste activities.

During the next fifteen days you will be contacted by a representative of this Department to arrange for a mutually agreeable time for an inspection of your facility to determine compliance with the federal hazardous waste regulations. This inspection will be made within forty-five days of this date. You are requested to have all of your hazardous waste activity records as well as a person knowledgeable about your facility operations available at the time of inspection.

Your cooperation in this matter will be appreciated. Please call Vicky Valade or Mitch Kramer at (904) 396-6959 should you have any questions.

Sincerely,

Ernest E. Frey, Supervisor
Hazardous Waste Section
