Mr. R. H. McPhersons  
M & W Industrial Coating Inc.  
816 Tallyrand Avenue  
Jacksonville, FL 32206

Dear Rick:

Your letter to Colonial Pipeline Company has been reviewed.  
Two areas were found to need further discussion.

1. Step 3-B

How will the manifest be completed?  
Will M & W sign as T/S/D facility?

2. Step 4-B

If the waste is nonhazardous, it will  
be transported and disposed of by Duval  
Septic at their solid waste and industrial  
waste approved land disposal facility.  
What will happen to any waste which is  
determined to be hazardous? M & W may be  
considered the generator of the waste.

These are the only two areas of contention. Please call  
if further assistance can be provided.

Sincerely,

Ernest Frey, Supervisor  
Hazardous Waste Section
